Company Profile:

xcelerator is a collaborative learning community which helps college students build a portfolio of skills aligned to their career aspirations. The platform creates a gamification layer to integrate and align everything a college student does (education, exposure, experience) to specific job roles chosen by the students - all the while creating personal paths to success for them. The platform recommends a variety of activities to help students augment skills and build an industry relevant portfolio - learning, books and articles, events, workshops, projects, internships, jobs –fundamentally changing how we learn.
