## **Recruitment drive for VEE TECHNOLOGIES**

### **Company Profile:**

**Vee Technologies**, part of 70 years old Sona Valliappa Group, offers global exposures and dynamic career opportunities to its employees. At Vee technologies, we strive to build an international workforce that reflects our commitment to employees' safety, sustainability and growth. We employ more than 2500+ employees in Bangalore, Chennai, Salem and New York. We are a leading knowledge process management company offering services across healthcare, insurance, engineering, logistics, and finance & accounting domains to companies of repute from USA, Europe Australia and India. Vee Technologies is growing at a rapid phase and wants to be a 5000 employee's organization by 2020.

Vee Technologies is using HireMee platform for online assessments to select the prospective candidates.

**HireMee our Assessment Partner** is a state-of-the-art web portal and mobile app that connects companies and recruiters with fresh graduates from colleges across India.

HireMee conducts skill assessments for students giving them a 7-digit score that goes into their pre-assessed profiles. Through HireMee mobile app, students upload their video profiles. The combination of this gives recruiters

and companies a detailed picture of each candidate, so they can shortlist candidates directly from HireMee's website or mobile app.

HireMee's skill assessment is backed by leaders from industry and academia. HireMee aims to help students acquire their dream jobs straight out of college, which enable colleges to achieve better placement records, and companies to find the right person for the right job. The Hiremee test scores will be used by prospective employers to shortlist the candidates. Post shortlisting the candidates will be interviewed by employers who are interested in hiring campus students and the companies who visit the colleges or conduct video interviews in the next 2-3 months.
