DRIVE 59

Company Profile:

IBM has been present in India since 1992. IBM India's solutions and services span all major industries including financial services, healthcare, government, automotive, telecommunications and education, among others. As a trusted partner with wide-ranging service capabilities, IBM helps clients transform and succeed in challenging circumstances. The diversity and breadth of the entire IBM portfolio of research, consulting, solutions, services, systems and software, uniquely distinguishes IBM India from other companies in the industry.

Business Unit Introduction

IBM Global Business Services helps clients solve complex business and technical issues. We deliver innovative business consulting, process design, systems integration, application management and design. Our core competencies include deep business process and industry expertise, advanced analytics and research capabilities, comprehensive IT infrastructure knowledge, and proven ability to implement enterprise solutions that deliver bottom-line business value.

At Global Technology Services (GTS), we help our clients envision the future by offering end-to-end IT and business process services, supported by an unmatched global delivery network. GTS builds standardized portfolios around key assets and patented software, and bundles them with best practices and proven methodologies to ensure high quality of delivery, security, and compliance. It's this unique blend of bold new ideas and client-first thinking that makes GTS the fastest-growing division of IBM
