A State Level Science Exhibition cum Competition
on “Science and Technological Solutions for Specially Abled Persons”

Technology helps differently-abled people in many different ways; it proves people with disabilities can lead more healthy lives with technologies.

In view of celebrating the “Science Day”, VTU PG Center Belagavi is organizing a State Level Science Exhibition cum Competition on ”Science and Technological Solutions for Specially Abled Persons” with the clear motive of promoting application of Science and technology to help the society through creative and scientific thinking of young minds. Exhibition gives an exposure to all participants to present their original and innovative ideas. It deals with significance of scientific applications to make remarkable changes in the life of specially abled people to lead life with ease.

Program Objectives:
- Encourage students to improve their creativity and scientific thinking
- Promoting Science application to help the society
- Providing platform to young minds to exhibit their talent, creativity and concern towards applying science for betterment of society
- Developing problem solving techniques to benefit society by helping specially abled persons
- Identifying the potential talent amongst graduates from all fields of Medical, Engineering, Science, Management, and Diploma
- Providing exposure to present innovative ideas
