**About Institution:**

Shri Dharamasthala Manjunatheshwara Institute of Technology (SDMIT), Ujire, established in 2007, is affiliated to Visvesvaraya Technological University and is approved by AICTE. The guiding spirit and the driving force for all the progress and achievements of our SDMIT is the President Dr. D. Veerendra Heggade, Dharmadhikari of Shri Kshethra Dharmasthala. SDMIT focuses on integrating scientific training with value based education, to enable the all round development of the learners. SDM Institute of Technology focuses on promoting quality technical education in the region, to create a paradigm shift among the rural community that education is of paramount importance for socio economic development.

**About the Department of Information Science & Engineering:**

The department is hosted by qualified and eminent staff with doctorates and some pursuing Ph.D. It has MOU with companies like Infosys, Tonse Technologies, Richman & Freeland with student internship and good placement record. The department recognized by Value added courses, 2<sup>nd</sup> Rank in VTU from 2<sup>nd</sup> batch and scholars in foreign universities.

**About Dharmasthala:**

Dharmasthala is a clean Indian pilgrimage situated on the banks of river Nethravathi and surrounded by the green lush forest and hills of Malnad with deity Shiva as “Shri Manjunatha” and word “Dharma” displays the deity of justice at the temple and is supervised by Dharmadhikari Dr. D Veerendra Heggade.

**About the Conference:**

International Conference on Recent Trends in Technology (ICRTT) aims to bring together researchers, engineers and practitioners from academia and industry working in all major areas of information Science, computer science, electronics & electrical sciences to exchange their experience.

## Call for Papers:

Papers are invited from the prospective authors on the following topics including, but not limited to following:

Track 1: Information & Computer Science & Engineering

Image Processing, Pattern Recognition, Big Data, Data Mining, Enterprise Information Systems, Information and Knowledge Engineering, Artificial Intelligence, Natural Language Processing, Computer Vision, Cloud Computing, Distributed Computing, Bioinformatics, Semantic Web Software Engineering and Technology.

Track 2: Electronics & Electrical Engineering

Power Electronics, Electrical drives, Transportation, Renewable Energy Systems & Generation, Transmission & Distribution, Industrial applications.

## Instruction to Authors:

Authors are requested to submit full paper in IJCA format not exceeding six pages. Submitted papers must be original unpublished research and recent developments in the topics related to the conference. Soft copies of paper should be mailed to the id: [sdmiticrtt1@gmail.com](mailto:sdmiticrtt1@gmail.com), [dharmannasdmit@gmail.com](mailto:dharmannasdmit@gmail.com)

## Publication:

All the accepted and presented papers at the conference will be published in UGC approved journal IJCA with impact factor 3.12 and indexed by American Universities.

## IMPORTANT DATES

Last date for Full Paper submission	: 25 <sup>th</sup> April 2018
Intimation of Acceptance	: Within one week of paper submission
Last date for Registration	: 2 <sup>nd</sup> May 2018
Last date for submission of Camera Ready Paper and Copy Right Form	: 10 <sup>th</sup> May 2018

Registration Fees	
Faculty/Industrialist	Rs. /-1500
Research Scholars	Rs. /-1200
PG/UG Students	Rs. /-1000

Registration fee is to be paid by Demand Draft drawn in favor of "The Principal, SDMIT, Ujire" payable at Ujire.

## Travel and Accommodation:

TA/DA will not be paid to the participants attending the conference.

## Contact for any clarifications:

# International Conference on “Recent Trends in Technology” ICRTT – 2018 in Collaboration with IJCA

**18<sup>th</sup> & 19<sup>th</sup> May, 2018**

Organized By

**Department of Information Science & Engineering  
Shri Dharmasthala Manjunatheshwara Institute of  
Technology, Ujire – 574 240, Dakshina Kannada,  
Karnataka, India.**

**International Conference on Recent Trends in Technology (ICRTT)** aims to bring together researchers, engineers and practitioners from academia and industry working in all major areas of Information science, Computer science, Electronics & Electrical sciences to exchange their experience.

**The Conference aims to cover following areas, but it is NOT LIMITED to only these:**

#### Database Tracks:

- Availability, Reliability, and Scalability
- Benchmarking and Performance Evaluation
- Big Data and Data analytics
- Business Process Modeling
- Database Monitoring and Tuning
- Data Management in Clouds
- Data Processing in Social Networks
- Data Mining and Knowledge Discovery
- Data Warehousing, OLAP, and ETL Tools
- Database Design and Tuning
- DBMS on Emerging Hardware Architectures
- Heterogeneous Databases and Interoperability
- Metadata management and interoperability
- Parallel, Distributed, and Grid Data Management
- Privacy and Security in Trustworthy Databases
- Query Processing and Optimization
- Semantic Web and Knowledge Management
- Systems performance and transaction Management
- Web Information and Services
- XML and Semi-structured Databases
- Security in Wireless Sensor Networks
- Security Protocol
- Key Management Technique
- Message Authentication & Hash Functions
- Digital Signature Schemes
- Secret Sharing
- Security in E-Commerce & M-Commerce
- Watermarking
- Cloud Computing Security
- Database Security
- Data Mining Security
- Opportunistic networks
- Vehicular ad hoc networks (VANET)
- Cognitive radio networks
- Wireless body area networks (WBANs)
- Mobile P2P networking, systems, and applications
- Next generation Internet services and applications
- Wireless sensor networks
- WLANs, WiMAX, satellite, 3G and Beyond

#### Computing Tracks:

- Computational Methods and Algorithms
- Green Computing
- Soft Computing
- Parallel Computing
- Grid Computing
- Mobile and Pervasive Computing
- Distributed Computing
- Cloud Computing
- Web and Internet Computing
- High Performance Computing
- Bioinformatics

#### Networks & Security:

- Security Algorithms
- Mobile Network Security
- Security in Grid

#### Electronics:

- VLSI
- Communication
- RF and Microwave
- Embedded systems
- Signal Processing
- Power Electronics
- Nano Technology
- MSME and NSNE
- Wired and Wireless Communication
- Image Processing
- Automation control systems
- Solid State Physics
- Tele-communication
- PCB Designing
- Robotics and Intelligent Systems
