"Jnana Sangama", Belgaum-590018 Karnataka

Ref: CPC Drive – 2018/ 42

Dates: 24<sup>th</sup> Oct 2017

Special drive for  
CEAD passed out  
students only

In Association with CEAD

**Supports the \*  
Recruitment drive for**

**Drive  
42/2018**

**Safran Engineering Services**

### Company Profile:

Safran Engineering Services is part of the Safran group and a subsidiary of Safran Electrical & Power. The company provides hi-tech engineering services to the aerospace, energy and ground transport industries. With its 3,700 engineers and technicians, the company has many operating entities around the world (France, Germany, United Kingdom, Spain, United States, Mexico, Morocco, Canada, Brazil and India), which combine their expertise in electrical systems, aerostructures, mechanical and software systems and on-board electronic systems.

Safran Engineering Services maintains the highest standards of quality in each of its activities, giving priority to:

- customer satisfaction
- meeting commitments
- continuous improvement
- mobilization of all employees

Safran Engineering Services is also involved with the Group's major R&T projects.

## **Centre of Excellence in Aerospace & Defence (CEAD)**

The Karnataka Biotechnology & Information Technology Services (KBITS), a Govt. of Karnataka enterprise along with VTU in association with Dassault Systems India Pvt. Ltd., has established the Centre of Excellence in Aerospace and Defence (CEAD) with the objective of skill development and providing industry with trained manpower to the thriving aerospace industry in India. The Centre of Excellence, located at VTU's Regional Centre, Bangalore, train graduates and post-graduate engineering students on Aircraft and Aerospace Technologies. The centre offers two certificate courses (1) Foundation Course in Aerospace Engineering (one Month)- Aerospace Engineering Fundamentals and (2) Advanced Course in Aerospace Engineering (Four months). The courses offered at CEAD are aimed at providing right mix of theory and practical exposure to the students such that at the end of the course, the students would come out with essential knowledge in air vehicle development. These courses are delivered by Aerospace Industry experts. The first batch of students has finished their course and ready for placement.

The CEAD, using the 3D Experience platform of M/s. Dassault Systems, provide access to over 35 years of expertise and technology garnered from this collaboration with the world's leading Aerospace & Defence companies. This experience takes the form of the dedicated industry solutions addressing each major stage of Aerospace Programmes. The programme also exposes the students to the domain in the form of visits to various Aerospace establishments.

## **Positions Safran hiring:**

**1) Position:** Apprentice

**Duration:** 6 months.

**Stipend:** INR 15000 per month. After 3 months, there will be a review by managers. If successful, they will be taken on permanent rolls ( Trainee)
