21KBK47BalakeKannada is for non-Kannada speaking, reading, and writing students, and **21KSK47Samskrutika Kannada** is for students who speak, read and write Kannada.

Summer Internship-II (21INT58): shall be carried out at industrial (State and Central Government /Non-government organizations (NGOs)/Micro, Small and Medium Enterprise (MSME)/Innovation centers/ Incubation centers. The internship can also be Rural internship. All the students admitted shall have to undergo a mandatory internship of 04 weeks during the intervening vacation of IV and V semesters. A University Viva-Voce examination (Presentation followed by Question & Answer session) shall be conducted during V semester and the prescribed credit shall be included in the V semester. The internship shall be considered as a head of passing and shall be considered for the award of degree. Those, who do not take up/complete the internship shall be declared fail and shall have to complete during subsequent University examination after satisfying the internship requirements. (The faculty coordinator or mentor has to monitor the students' internship progress and interact to guide them for the successful completion of the internship.)

Summer Internship-II: SEE shall be through seminar and viva-voce.

The course prescribed to lateral entry Diploma holders admitted to III semesters of Engineering programs

1. The mandatory non – credit courses **Physical Education (Sport and Athletics), Yoga and NSS I and II** prescribed for V and VI semesters respectively, to the students admitted to V semester of B.E./B.Tech., programs, shall attend corresponding the classes during the respective semesters to complete all the formalities of the course and appear for the University examination. In case, any student fails to register for the said course/fails to secure the minimum of 40% of the prescribed CIE marks, he/she shall be deemed to have secured F grade. In such a case, the student has to fulfill the requirements during subsequent semester/s to appear for SEE.
2. These Courses shall not be considered for vertical progression, but completion of the courses shall be mandatory for the award of degree.
3. The students who take a course on Physical education he/she has to take up the semester-end practical examination prescribed for 100 marks. The students who opt for the NSS course have to submit reports and attend to viva-voce examination. The marks for the report shall be 50 marks and for presentation and viva-voce 50 marks.

Integrated Professional Core Course (IPCC): It refers to Professional Theory Core Course Integrated with Practical of the same course. Credit for IPCC can be 04 considering L:T:P as 3:0:2 or L:T:P as 2:2:2. For an IPCC, the theory part shall be evaluated by both CIE and SEE, and the practical part is evaluated by CIE only (there shall be no semester-end examination (SEE) for the practical part). For more details the regulation governing the Degree of Bachelor of Engineering /Technology (BE/B.Tech.) 2021-22 may be referred.

4. The mandatory non – credit courses Physical Education (Sport and Athletics), Yoga and NSS I and II prescribed for V and VI semesters respectively, to the students admitted to V semester of B.E./B.Tech., programs, shall attend the classes during the respective semesters to complete all the formalities of the course and appear for the University examination. In case, any student fails to register for the said course/ fails to secure the minimum 40% of the prescribed CIE marks, he/she shall be deemed to have secured F grade. In such a case, the student has to fulfill the requirements													

during subsequent semester/s to appear for SEE.

5. These Courses shall not be considered for vertical progression, but completion of the courses shall be mandatory for the award of degree.

1. The students who take course on Physical education he has to take up practical examination for SEE. The students who take NSS course have to submit report, for SEE has to present (PPT) and answer vivo-voce for marks in the ratio 50:50

Research/Industrial Internship (21INT82)– At the End of the sixth / Seventh semester (in two cycles to accommodate all the students of the University) Research/Industrial Internship shall be carried out – Based on industrial/Govt./NGO/MSME/Rural Internship/Innovation/Entrepreneurship. All the students admitted shall have to undergo a mandatory internship of **24 weeks** during the vacation of VI/VII semesters. A University Viva-Voce examinations shall be conducted during VII/VIII semester and the prescribed credit shall be included in VII/VIII semester. The internship shall be considered as a head of passing and shall be considered for the award of degree. Those, who do not take up/complete the internship shall be declared fail and shall have to complete during subsequent University examination after satisfying the internship requirements.

Research internship Students have to take up pre-research internships at Centers of Excellence (CoE)/Study Centers established in the same institute and /or out of the institute at reputed research organizations / Institutes. A research internship is intended to give you the flavor of current research going on in a particular topic/s. This helps students get familiarized with the field, the skill needed the effort amount and kind of effort required for carrying out research in that field.

Industry internships: Is an extended period of work experience undertaken by students looking to supplement their degree with professional development. The students are allowed to prepare themselves for the workplace and develop practical skills as well as academic ones. It also helps them learn to overcome unexpected obstacles and successfully navigate organizations, perspectives, and cultures. Dealing with contingencies helps students recognize, appreciate, and adapt to organizational realities by tempering knowledge with practical constraints. The student can take up Interdisciplinary Industry Internship. Students can undergo industry internships in recognized industries from local/within the state/within the country/abroad within the stipulated time as mentioned in the scheme. The faculty coordinator or mentor has to monitor the students' internship progress and interact to guide them for the successful completion of the internship. University shall not bear any expenses incurred in respect of internship.

Mini-project work: Based on the ability/abilities of the student/s and recommendations of the mentor, a single discipline or a multidisciplinary Mini-project can be assigned to an individual student or to a group having not more than 4 students. (or Mini Project is a laboratory-oriented course which will provide a platform to students to enhance their practical knowledge and skills by the development of small systems/applications) CIE procedure for Mini-project:

(i) **Single discipline:** The CIE marks shall be awarded by a committee consisting of the Head of the concerned Department and two senior faculty members of the Department, one of whom shall be the Guide. The CIE marks awarded for the Mini-project work shall be based on the evaluation of project report, project presentation skill, and question and answer session in the ratio of 50:25:25. **The marks awarded for the project report shall be the same for all the batch mates.**

(ii) **Interdisciplinary:** Continuous Internal Evaluation shall be group-wise at the college level with the participation of all the guides of the college. The CIE marks awarded for the Mini-project, shall be based on the evaluation of project report, project presentation skill, and question and answer session in the ratio of 50:25:25. The marks awarded for the project report shall be the same for all the batch mates.

SEE for Mini-project:

(i) **Single discipline:** Contribution to the Mini-project and the performance of each group member shall be assessed individually in the semester-end examination (SEE) conducted at the department.

(ii) **Interdisciplinary:** Contribution to the Mini-project and the performance of each group member shall be assessed individually in semester-end examination (SEE) conducted separately at the department to which the student/s belongs.

Professional Elective Courses (PEC):

A professional elective (PEC) course is intended to enhance the depth and breadth of the educational experience in the selected stream of the Engineering & Technology curriculum. Multidisciplinary courses that supplement the programs have been added as elective courses. These courses deal with the latest trend and advanced technology in the selected stream of engineering. Three groups of PEC are made available for undergraduate students in the curriculum. Each group will provide an option to select one out of four to five. Each group of Professional Elective Courses contains all stream courses, which will help the students to select and study particular stream course of his interest. (Courses which are common to AU, ME, IP Board should have the same code) Similarly for (CSE, ISE, MCA) and (CV, Arch, Mining) and (EEE, ECE, EIE,) and (CH, SX, TX).

The minimum students' strength for offering professional electives is 05, if the strength is less than the 05 then the college has to take the permission to offer the course.

Professional Elective Courses may be Integrated courses having both Theory and Practical syllabus, However total credits for the course shall remain (L:T:P = 2:0:2)/(L:T:P = 1:2:2) = 03 only.

Integrated Professional Core Course (IPCC): It refers to Professional Theory Core Course Integrated with Practicals of the same course. Credit for IPCC can be 04 considering L:T:P as 3:0:2 or L:T:P as 2:2:2. For an IPCC, theory part shall be evaluated by both CIE and SEE and practical part be evaluated by CIE only (there shall be no semester end examination (SEE) for the practical part). For more details the regulation governing the Degree of Bachelor of Engineering /Technology (BE/B.Tech) 2021-22 may be referred.

Open Elective Courses:

All Open Electives are offered to students of all branches in general. However, a student shall choose an open Elective from the list in such a manner that he/she has not studied the same course in any form during the Program. Students can select any one of the open electives offered by other Departments except those that are offered by the parent Department (Please refer to the list of open electives). Selection of an open elective shall not be allowed if,

- The candidate has studied the same course during the previous semesters of the program.
- The syllabus content of open electives is similar to that of the Departmental core courses or professional electives.
- A similar course, under any category, is prescribed in the higher semesters of the program.
- Registration to electives shall be documented under the guidance of the Program Coordinator / Advisor / Mentor.

Courses from Law, Business (MBA), Medicine, Arts, Commerce, may be offered as Open Elective Courses (OEC). However, the college has to take approval from the University if such courses are not listed in the group at least one month before the commencement of the semester.

The minimum students' strength for offering professional electives is 05, if the strength is less than the 05 then colleges have to take the permission to offer the course from the University.

Professional Core Course (Integrated): Theory Syllabus of Professional Core Courses integrated with Practical Syllabus of the same course. Credit for integrated subject will be (L: T: P = 3:0:2)/(L:T:P = 2:2:2) = 04. In such a course there is no Semester End Examination (SEE) for the practical syllabus of the course, however Continuous Internal Evaluation (CIE) will be conducted for the practical topics.

AICTE activity Points: In case students fail to earn the prescribed activity Points, the Eighth semester Grade Card shall be issued only after earning the required activity Points. Students shall be admitted for the award of the degree only after the release of the Eighth semester Grade Card.

Activity points of the students who have earned the prescribed AICTE activity Points shall be sent to the University along with the CIE marks of 8th semester. In case of students who have not satisfied the AICTE activity Points at the end of the eighth semester, the column under activity Points shall be marked NSAP (Not Satisfied Activity Points).

TECHNICAL SEMINAR(21MRS81): The objective of the seminar is to inculcate self-learning, face the audience confidently, enhance communication skill, involve in group discussion, and present and exchange ideas. Each student, under the guidance of a Faculty, shall choose, preferably, a recent topic of his/her interest relevant to the program of Specialization.

- Carryout literature survey, systematically organize the seminar content.
- Prepare the report with own sentences, avoiding a cut and paste act.
- Type the matter to acquaint with the use of Micro-soft equation and drawing tools or any such facilities.
- Present the seminar topic orally and/or through PowerPoint slides.
- Answer the queries and involve in debate/discussion.
- Submit a typed report with a list of references.

The participants shall take part in the discussion to foster a friendly and stimulating environment in which the students are motivated to reach high standards and become self-confident.

Evaluation Procedure:

The CIE marks for the seminar shall be awarded (based on the relevance of the topic, presentation skill, participation in the question and answer session, and quality of report) by the committee constituted for the purpose by the Head of the Department. The committee shall consist of three teachers from the department with the senior-most acting as the Chairman.

Marks distribution for CIE of the course:

Seminar Report:50 marks

Presentation skill:25 marks

Question and Answer:25 marks. ■

PROJECT WORK (21MRP75): The objective of the Project work is- To encourage independent learning and the innovative attitude of the students. To develop interactive, communication, organization, time management, and presentation skills. To impart flexibility and adaptability. To inspire independence and team working. To expand intellectual capacity, credibility, judgment, intuition. To adhere to punctuality, setting and meeting deadlines. To instill responsibilities to oneself and others. To train students to present the topic of project work in a seminar without any fear, face the audience confidently, enhance communication skills, involve in group discussion to present and exchange ideas.

CIE procedure for Project Work:

- (1) **Single discipline:** The CIE marks shall be awarded by a committee consisting of the Head of the concerned Department and two senior faculty members of the Department, one of whom shall be the Guide.

The CIE marks awarded for the project work, shall be based on the evaluation of project work Report, project presentation skill, and question

and answer session in the ratio 50:25:25. The marks awarded for the project report shall be the same for all the batch mates.

(2) Interdisciplinary: Continuous Internal Evaluation shall be group-wise at the college level with the participation of all guides of the college. Participation of external guide/s, if any, is desirable. The CIE marks awarded for the project work, shall be based on the evaluation of project work. Report, project presentation skill, and question and answer session in the ratio 50:25:25. The marks awarded for the project report shall be the same for all the batch mates.

ANNEXURE-I

Evaluation of the Theory and Practical Integrated Courses (TPICs):

- 1 The credit for TPICs shall be 04. This may be subdivided in any appropriate form depending on the type of course, however, ensuring at least 2 hours for hands-on experience at the laboratory.

The 04 credits can be arranged to have the following teaching hours.

(a) 3L:0T:1P, 4 credits, 05 hours.

(b) 2L:1T:1P, 4 credits, 06 hours.

In both the cases (i.e., a and b above), the syllabus of the theory part shall be designed for 40 hours and the number of experiments/ programmes shall be sufficient enough to cover in 12 to 14 days of 16-week duration of the semester.

- 2 The maximum marks for TPICs shall be 100 marks.
- 3 Fifty marks of the maximum marks of TPICs shall be for CIE and the other 50 marks shall be for SEE of the theory part of TPICs.
- 4 The CIE marks for the theory part of the TPIC shall be 30 and for the laboratory part 20.
- 5 As continuous evaluation has been given more importance in NEP 2020, the minimum marks to be secured in CIE to appear for SEE shall be respectively 15 and 10. The laboratory part of the TPICs shall be for CIE only.
- 6 The theory part of the TPICs shall be for both CIE and SEE.
- 7 As continuous evaluation has been given more importance in NEP 2020, attendance shall separately be counted for theory and laboratory.
- 8 A minimum of 85 % attendance is to be put in for both theory and laboratory, with the condonation clause equally applying to both theory and laboratory.
- 9 In case, students fail to satisfy the attendance requirement of either the theory part or laboratory part of the TPIC, students shall not be permitted to appear for SEE of that semester and shall not be permitted to take admission to the next higher semester. The candidate shall be required to repeat that semester during the subsequent year.
- 10 In case, students satisfy the attendance requirement of both theory and laboratory part of the TPIC, but fail to secure the minimum CIE marks in any one of the two, such students shall not be permitted to appear for SEE of course. In such events, students shall be considered as fail in such a course and the same shall be considered for vertical progression.

Such students shall be permitted to register afresh and appear for SEE after satisfying the CIE requirements of the theory part (with or without satisfying the attendance requirement) or CIE requirements of the laboratory part, both when offered during the subsequent semester.

- 11 Each appearance to SEE to complete a course shall be treated as an attempt.
- 12 The theory paper examination shall be conducted for a maximum of 100 marks. The marks secured by students shall be reduced

proportionately to 50 marks. The fractional value that results when secured marks are reduced to 50 shall be rounded off to a higher integer. For a pass in SEE, the minimum marks to be scored by students shall be 20 out of 50 or 40 out of 100.

- 13 The CIE marks awarded for tests in the theory of TPICs shall be based on three tests generally conducted at the end of a fifth, tenth, and fifteenth week of each semester. Each test shall be conducted for a maximum of 50 marks and the final test marks shall be the average of three tests, proportionately reduced to a maximum of 20 marks.
- 14 Out of the remaining 10 marks, 05 marks shall be considered for the assignments /unit-tests/written quizzes and other 05 marks for open-book tests, for self-study or to test problem-solving skills.
- 15 On completion of every experiment/programme in the laboratory, the students shall be evaluated and marks shall be awarded on the same day.
- 16 While 15 marks are for conducting the experiment and preparation of the laboratory record, the other 05 marks shall be for the test conducted at the end of the semester.
The final CIE marks for the TPICs shall be the sum of the CIE marks earned for the theory and laboratory parts marks.
- 17 The eligibility to appear for SEE of TPICs shall be subject to the condition that students have earned minimum CIE marks separately in theory and practical parts of TPICs.
- 18 CIE marks of TPICs shall be submitted to the University in the format shown below.

Course code of TPIC		
CIE marks of theory part	CIE marks of laboratory part	Total
25	12	37
