VISVESVARAYA TECHNOLOGICAL UNIVERSITY, BELAGAVI
Scheme of Teaching and Examinations 2022-23
Master of Computer Applications (VMC)
Choice Based Credit System (CBCS) and Outcome-Based Education(OBE)

I SEMESTER

Sl. No	Course Type	Course Code	Course Title	Teaching Hours per Week			Examination			Credits	
				Theory	Practical/Seminar	Skill Development Activities	Duration in hours	CIE Marks	SEE Marks		Total Marks
				L	P	SDA					
1	BSC	22VMC11	Mathematical Foundation for Computer Applications	03	--	--	03	50	50	100	3
2	IPCC	22VMC12	Operating System with Unix	03	02	--	03	50	50	100	4
3	PCC	22VMC13	Data Structures with Algorithms	04	--	--	03	50	50	100	4
4	PCC	22VMC14	Computer Networks	03	--	--	03	50	50	100	3
5	PCC	22VMC15	Software Engineering	04	--	--	03	50	50	100	4
6	MCC	22VMC16	Research Methodology and IPR	02	--	--	03	50	50	100	2
7	PCCL	22VMCL17	Data Structures with Algorithms Lab	--	03	--	03	50	50	100	2
8	PCCL	22VMCL18	Computer Networks Lab	--	03	--	03	50	50	100	2
9	BC	22VMC19-BC*	Basics of Programming & CO	02	-	02	--	100	--	100	--
TOTAL				21	08	02	24	400	400	800	24

Note: BSC-Basic Science Courses, PCC: Professional core. IPCC-Integrated Professional Core Courses, MCC- Mandatory Credit Course, AUD/AEC –Audit Course / Ability Enhancement Course, PP-Passing is Mandatory *Only for non-computer science students

Note: PCC- Professional Core Course; PCE- Professional Elective Course

Each Course (PCC/PCE) shall have case study discussion and may be considered as a part of assignment.

Theory courses internal assessment (CIE) shall be based on internal test (50% weightage), 50% weightage may be given to other continues assessment carried out during the teaching learning processes. Course coordinator may select suitable assessment techniques/tools for continues evaluation such as weekly Multiple Choice Questions (MCQ) quiz, higher order cognitive level questions as assignment, and case study questions/ any other assignment useful for learning with a minimum cognitive level at the application level. Average marks of three internal tests have to be considered for CIE along with other continues evaluations.

Laboratory courses internal assessment shall be based on internal test (50% weightage), remaining 50% weightage shall be given to continues evaluation of practical execution during regular laboratory hours. During regular laboratory hours students may be asked to solve the extended versions of the laboratory program/problem, and demonstrate higher order cognitive level such as analysis and design programming assignment. During the laboratory hours after the program execution, technical quiz may be conducted. Wherever laboratory is also having project work students may be asked to solve novel problems in their projects work.

Integrated Professional Core Course (IPCC): Refers to Professional Theory Core Course Integrated with practical of the same course. Credit for IPCC can be 04 and its Teaching–Learning hours (L : P : SDA) can be considered as (3 : 2 : 0) or (2 : 2 : 2). The theory part of the IPCC shall be evaluated both by CIE and SEE. The practical part shall be evaluated by only CIE (no SEE). However, questions from the practical part of IPCC shall be included in the SEE question paper.

Audit Courses /Ability Enhancement Courses Suggested by BOS (ONLINE courses): **Audit Courses:** These are the courses that will bridge the gap between the learned courses and courses intended to learn in future. **Ability Enhancement Course:** These courses are designed to help students enhance their skills in communication, language, and personality development. These are the ONLINE courses; recommended course list session-wise will be published in advance for the information of students. These courses are not counted for the vertical progression, however the students have to study and pass these courses before completion of the program. As ONLINE courses are available for the particular session, for failed student the particular course if it is not available in the next session, he/she shall be permitted to select the different course from ongoing session. Those, who do not take-up/complete shall be declared as fail degree will not be awarded to such students.

Skill development activities:

Students and course instructor/s to involve either individually or in groups to interact together to enhance the learning and application skills of the study they have undertaken. The students with the help of the course teacher can take up technical –activities which will enhance their skill or the students should interact with industry (small, medium and large), understand their problems or foresee what can be undertaken for study in the form of research/testing/projects, and for creative and innovative methods to solve the identified problem.

The students shall

- (1) Gain confidence in modelling of systems and algorithms.
- (2) Work on different software/s (tools) to Simulate, analyze and authenticate the output to interpret and conclude. Operate the simulated system under steady-state conditions to study the system with respect to thermal study, transient and steady-state operations, etc.
- (3) Handle advanced instruments to enhance technical talent.

(4) Involve in case studies and field visits/ fieldwork.

(5) Accustom with the use of standards/codes etc., to narrow the gap between academia and industry.

All activities should enhance student's abilities to employment and/or self-employment opportunities, management skills, Statistical analysis, fiscal expertise, etc.

Bridge course: 22VMC110-BC

22VMC110-BC: Bridge course is a non-credit course introduced to the students who admits into VMC program from non-computer science background. Students have to secure eligibility by scoring 50% marks in CIE (No SEE for this course).

II SEMESTER

Sl. No	Course Type	Course Code	Course Title	Teaching Hours /Week			Examination				Credits

TOTAL	19	08	04	25	400	400	800	26
Note: PCC: Professional core courses, PEC: Professional Elective Courses, IPCC-Integrated Professional Core Courses. MPS-Mini Project With Seminar; AUD/AEC; Audit Courses / Ability Enhancement Courses (Mandatory)								

Professional Elective 1		Professional Elective 2	
Course Code under 22VMC25X	Course title	Course Code under 22VMC26X	Course title
22VMC251	Cyber security	22VMC261	Cryptography and Network Security
22VMC252	Data Mining and Business Intelligence	22VMC262	Artificial Intelligence
22VMC253	Enterprise Resource Planning	22VMC263	Advanced Web programming
22VMC254	User Interface Design	22VMC264	Distributed operating System
22VMC255	Optimization Techniques	22VMC265	Natural Language Processing

Note:

1. Seminar: This may be hands-on practice, Survey report, Data collection and analysis, Coding, APP development, Field visit, and report preparation, Modelling of the System, Simulation, Analysing and authenticating, Case studies. CIE marks shall be awarded by a committee comprising of HoD as Chairman, Guide/co-guide, if any, and a senior faculty of the department. Students can present the seminar based on the mini-project undertaken. Participation in the seminar by all postgraduate students of the program shall be mandatory.

The CIE marks awarded for Seminar, shall be based on the evaluation of Report, Presentation skill and performance in Question and Answer session in the ratio 50:25:25. Seminar shall be considered as a head of passing and shall be considered for the award of degree. Those, who do not take-up/complete shall be declared as fail in the seminar course and have to complete the same during the subsequent semester.

2. Internship: All the students shall have to undergo a mandatory internship of **06 weeks** during the vacation of II and III semesters. A University examination shall be conducted during III semester and the prescribed internship credit shall be counted in the same semester. The internship shall be considered as a head of passing and shall be considered for the award of degree. Those, who do not take-up/complete the internship shall be declared as fail in internship course and have to complete the same during the subsequent University examination after satisfying the internship requirements.

Note: PCC: Professional core Courses, PEC: Professional Elective Courses. PROJ-Project Work, INT-Internship, OEC Open Elective Courses, SP-Societal Project

Professional elective 3		Open elective -1	
Course Code under 22VMC35X	Course title	Course Code under 22VMC36X	Course title
22VMC351	Block chain Technology	22VMC361	Deep Learning
22VMC352	Software Testing	22VMC362	Big data Analytics
22VMC353	Digital Marketing	22VMC363	Wireless Ad Hoc Networks
22VMC354	Object Oriented Design	22VMC364	Software Project Management
22VMC355	NOSQL	22VMC365	Software Defined Networks

Note:

1. Project Work Phase-1: Students in consultation with the guide/co-guide if any, shall pursue a literature survey and complete the preliminary requirements of the selected Project work. Each student shall prepare a relevant introductory project document, and present a seminar.

CIE marks shall be awarded by a committee comprising of HoD as Chairman, Guide/co-guide if any, and a senior faculty of the department. The CIE marks awarded for project work phase -1, shall be based on the evaluation of Project Report, Project Presentation skill, and performance in the Question and Answer session in the ratio of 50:25:25. There is no SEE (University examination) for this course.

2. Societal Project: Working out solutions for societal problems. Applying the technology to solve the societal problems. Those, who have not pursued /completed the Societal Project, shall be declared as fail in the that course and have to complete the same during subsequent semester after satisfying the Societal Project requirements. There is no SEE (University examination) for this course.

3. Internship: Those, who have not pursued /completed the internship, shall be declared as fail in the internship course and have to complete the same during subsequent University examinations after satisfying the internship requirements. Internship SEE (University examination) shall be as per the University norms.

VISVESVARAYA TECHNOLOGICAL UNIVERSITY, BELAGAVI
Scheme of Teaching and Examinations 2022 -23
Master of Computer Applications (VMC)
Choice Based Credit System (CBCS) and Outcome Based Education(OBE)

IV SEMESTER											
Sl. No	Course Type	Course Code	Course Title	Teaching Hours /Week			Examination				Credits
				Theory	Practical/ Mini-Project/ Internship	Skill Development activities	Duration in hours	CIE Marks	SEE Marks	Total Marks	
				L	P	SDA					
1	INT	22VMC41	Internship	(06 weeks Internship Completed during the intervening vacation of II and III semesters or/ and III and IV semesters)			03	50	50	100	6
2	SEM	22VMC42	Technical seminar	--	02	--	03	50	50	100	2
3	PROJ	22VMC43	Project work	--	05	--	03	50	50	100	18
TOTAL				--	07	--	09	150	150	300	26
Note: PCC: Professional core Courses, PEC: Professional Elective Courses. PROJ-Project Work, INT-Internship, OEC Open Elective Courses, SP- Societal Project, SEM - Seminar											

Note:**1. Project Work Phase-2:**

CIE marks shall be awarded by a committee comprising of HoD as Chairman, Guide/co-guide if any, and a Senior faculty of the department. The CIE marks awarded for project work shall be based on the evaluation of Project Report subjected to plagiarism check, Project Presentation skill and performance in the Question and Answer session in the ratio 50:25:25, which is finally reduced to 50.

SEE shall be at the end of IV semester. Project work evaluation and Viva-Voce examination (SEE), after satisfying the plagiarism check, shall be as per the University norms.

2.Seminar:

Students can present the seminar based on the Project undertaken. Participation in the seminar by all postgraduate students of the program shall be mandatory.

The CIE marks awarded for Seminar based on three project presentations each to be considered for 5 marks (5X3= 15 marks) and a final presentation for 25 marks. Presentation may be given using Power point presentation/demonstrations of the work. Synopsis submitted in a proper format is to be evaluated for 10 marks.

Total Credits 24+26+30+20=100
