				17	5	7	24	350	250			600	23

Note: **ISC**-Integrated Studio Course, **PCC**- Professional Core Course, **NCMC**- None Credit Mandatory Course, **PSC**- Professional Supportive Course to the specialization, **PCCL**-Professional Core Course lab, **PEC**- Professional Elective Course **AUD/AEC** –Audit Course / Ability Enhancement Course, **L-Lecture, S-Studio, T/SDA-Tutorial / Skill Development Activities** (Hours are for Interaction between faculty and students)

	Course	Course Code	Professional Elective Courses-1
1	PEC -1	MAID115A	Craft in interior Design
2	PEC	MAID115B	Advanced Software

Integrated Studio Course (ISC): Refers to a Professional Studio Core Course Integrated with the theories/software relating to the studio. The theory part of the ISC shall be evaluated by CIE with regular assignment. The studio part shall be evaluated by both CIE & SEE (Viva-Voce with the external examiner). **Professional Core Course (PCC):** Refers to a Course, which constitutes a major theory part of

PEC: Professional Elective Course: Elective courses will provide some of the most valuable and additional knowledge. The students will benefit from electives as they imply additional knowledge.

- 1. Studio:**
- (i) Students and studio coordinators to be involved individually or in groups to interact and enhance learning and application skills.
 - (ii) The students should be involved with Industry/ Professional Bodies/ Stakeholders in issue identification followed by research/ case studies/ testing that results in creative and innovative solutions to the
 - (iii) Students will gain real-world experience by working with industry professionals
 - (iv) Students must work on different software/s(tools) to simulate, analyze, and authenticate the output to interpret and conclude.
 - (v) Students must be involved in case studies and site visits/fieldwork.
 - (vi) Students must familiarize themselves with codes of standard to narrow the gap between academia and the respective domain-oriented industry.
2. All activities should enhance student's abilities for employment and/or self-employment opportunities, management skills, Statistical analysis, fiscal expertise, etc.
3. **Skill Development Activities:** They may be in the form of periodic site visits, guest lectures, and webinars, and seminars, need not be a fixed slot in timetables.

Also the student Under Skill development activities in a respective program, the students should

- 1. Interact with industry (construction/consultancy/product oriented).

2. Involve in research/testing/projects to understand their problems and help creative and innovative methods to solve the problem.
3. Involve in case studies and field visits/ fieldwork.
4. Accustom to the use of standards/codes/byelaws/zoning regulations etc., to narrow the gap between academia and industry.
All activities should enhance student's abilities to employment and/or self-employment opportunities, management skills, statistical analysis, fiscal expertise, etc. Students and the course faculty are to be involved either individually or in groups to interact together to enhance the learning and application skills of the study they have undertaken. The students with the help of the course teacher can take
4. Viva-voce:
The viva -voce shall be conducted for a duration of 20 minutes (per student including if any group presentation) for the subjects listed under viva voce for all the semesters with one external examiner and
24RMI17-Research Methodology and IPR- Non-Credit Mandatory Course (NMC) The student has to take this course at http://online.vtu.ac.in and qualifying in this course is compulsory before completion of the minimum duration of the program (Two years), however, this course will not be considered for vertical progression .
Online Course: These are the MOOC courses that the relevant stream's Board of Studies has recommended; you can access them at www.online.vtu.ac.in . To qualify for those courses, the students must complete 8-12 weeks duration courses. The courses chosen have not to be the same as that of the courses or subjects covered in the preceding semesters. Depending on the needs of the degree program, the BOS may recommend interdisciplinary courses. It is required to pass the course and qualify
