CIRCULAR

Sub: Discussion session on “Importance of soft skills, Intrapersonal skills and how to crack an interview: HR Perspective”: Regd,

With respect to the above subject, Training and Placement Cell, Center for Post Graduate Studies, Mysuru” is organizing a discussion session on **“Importance of soft skills, intrapersonal skills and how to crack an interview: HR Perspective”** with industry experts on **13th March 2020 at 11:30 AM**. Hence, the program coordinators of all the departments are hereby requested to circulate the same information to all your students and ask them to come up with their doubts / clarifications on those areas. It is completely discussion session to clarify their all doubts.

Resource Person: Mr. Chandru, HR Manager, Starmark Software Services, Bengaluru
Venue: MBA Seminar Hall, 1st Floor

Coordinator

Regional Director 4/03/2020

Current trends in HR practices with respect to IT Industry

Cognizant, Bengaluru, HR executive, Pratiksha Patil

Current trends in HR practices with respect to IT Industry 'Development' is learning for growth of the individual which may not be related to a specific present or future job Training and development programs can have one or more of these three goals:

To improve an individual's level of self-awareness;

To improve an individual's skill in one or more areas of expertise.

To increase an individual's motivation to perform his or her job.

An Invited talk on Recent trends in Marketing and Sales

Mr. Samuel Ruben Director
Razon Management Consultancy Private Limited Bengaluru,

Mr. Samuel started the consultancy service as a part-time business ,when he understood the job requirement of the people and company requirements started concentrating more on consultancy by this he found company HRs are looking knowledge and smart people upgraded people with new thoughts , it was more interaction session how the company is upgrading its skills and technology and employees has to adopt . it was very useful for the final year students . Students interacted with him and asked questions related to the job prospects in sales.

Dr. Satish U concluded the session by thanking Mr. Samuel and students.

EVENT NO. 18

**One day workshop by industry
expert on “BLOCK CHAIN
TECHNOLOGY”**

Visvesvaraya Technological University Centre for PG
Studies, Kalaburagi
(Dept. of CSE)

Report on

One day Workshop on

“BLOCK CHAIN TECHNOLOGY”

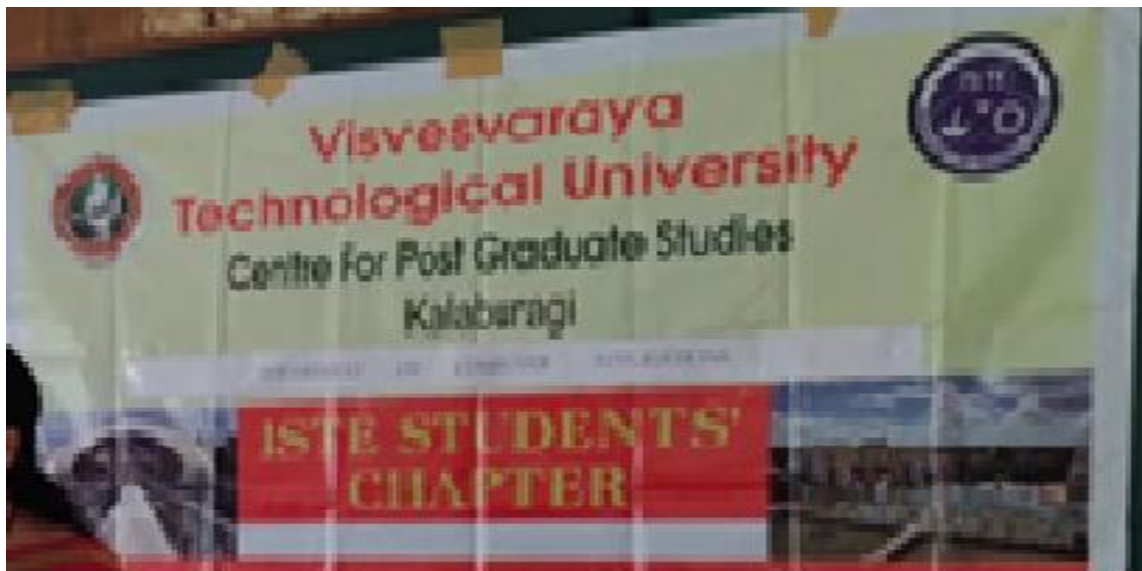

Under ISTE Students' Chapter

(09 JANUARY 2020)

Introduction

One day workshop on topic 'Block Chain Technology ' is being conducted under Indian Society for Technical Education (ISTE) students chapter held on 09 January 2020 at 09.30 am to 04.30 pm in two sessions morning and afternoon in the seminar hall at Visvesvaraya Technological University, Centre for PG studies, Kalaburagi. This event is organized by Department of Computer Science and Engineering under ISTE student's chapter VTU Kalaburagi. The resource person Ms. Anupama, Industry expert handled the sessions of the workshop.

The resource person handled the session on:

➤ **Block chain Technology**

The expert briefed about importance of Block Chain Technology

Blockchain Technology is the most promising technology of the 21st century. Many have compared the blockchain technology's potential significance to that of the internet. The fact that blockchain is a decentralised way of storing and accessing data makes the whole system incredibly secure – because, unlike a centralised database, there's no one single point of entry for hackers. This makes it particularly useful for recording transactions in a secure manner.

The blockchain technology is a decentralized ledger that keeps a record of transactions that takes place across a peer-to-peer network. This technology allows participants from across

the network to confirm their transaction without the need for a central authority, this includes money transactions, voting, and settling trades and many more.

How does it work?

If someone requests for a transaction, this transaction is then broadcasted to a P2P network that consists of computers which are known as nodes. The sole purpose of these nodes is to validate the transaction and the status of the user using algorithms. Now this verified transaction can either involve cryptocurrency, records, transactions or any kind of other data. This verified transaction is then combined with other transactions that create another block of data. The block of data is then added to the existing blockchain. This blockchain cannot be altered and is permanent.

The expert also discussed about the impact of blockchain technology and decentralization:

- Security purposes

The digital world is filled with hackers looking to breach information or steal data from sources. With blockchain technology, the information stored has robust security making it impossible for one to hack.

- Transparency

Since everything is displayed on the network, there are very fewer chances that there would be any kind of discrepancy that can be created.

- It is inexpensive

Most of the traditional financial models that are available in the market are expensive, however, with blockchain it is inexpensive.

- Less transaction time

An individual can send, receive money and financial documents within a couple of minutes, this reduces the burden of waiting for hours together.

- Financial efficiency is increased

Decentralized blockchain allows one to make transactions from individual to individual without the involvement of the third party. This help saves a lot of money while making transactions, unlike traditional banks.

- Protect businesses from fraud

The blockchain is open source ledgers which is why it is very easy to identify if fraud has taken place since every transaction is recorded on them.

The industries disrupted by blockchain

The banking sector isn't the only industry that has been impacted by blockchain technology. Other sectors like law firms or law enforcement are other industries that can be disrupted by blockchain technologies.

The expert also discussed application areas using block chain :

- The banking sector - blockchain is said to be the safest way to store banking records and probably the easiest and cheapest means in transferring funds through the decentralization provided by blockchain.

- Voting - voting irregularities could be minimized with the help of blockchain technology. Everything can be secured through blockchain, from casting votes to tallying the votes, the system is said to be indisputable.

- Healthcare - managing records of patients could be a pain during the past, but this isn't the case today. Today, doctors can easily access patients health records and track them regardless of how many times you have changed the doctors.
- Real estate - buying and selling land requires a lot of paperwork but with blockchain, the process is much easier and simpler.
- The legal industry - storing legal documents, retrieving them and verifying are the key functions that include in the legal industry. And the questions raised over the legality of wills and other important documents can be eliminated by implementing blockchain secured documents.
- The government - in a government sector, corruption can be eliminated using blockchain technologies. For instance, employment, welfare, and disability benefits can be distinguished and distributed in a much easier manner.

Over the next decade, there will be new blockchain ideas that would emerge, few might be a success and a failure. But during the process, there will also be some great problems that will be solved with the emergence of new models.

The resource person and industry expert Ms. Anupama handling the session in seminar hall.

Finally students were satisfied and gave positive feedback and enlightened with the knowledge on block chain technology.

EVENT NO. 20

Two days workshop by industry
expert on

“ PYTHON PROGRAMMING ”

**Visvesvaraya Technological University Centre for
PG Studies, Kalaburagi
(Dept. of MCA)**

A

Report on

Two days Workshop

On

"PYTHON PROGRAMMING"

Under ISTE Students' Chapter

(6TH and 7TH January 2020)

Introduction

Two days workshop on topic “ PYTHON PROGRAMMING “ was being conducted under Indian Society for Technical Education (ISTE) students chapter held on 6th & 7th January 2020 from 09.30 am to 04.30 pm in two sessions : Morning in the MCA laboratory and Afternoon hand held session in laboratory at Visvesvaraya Technological University, Center for PG studies, Kalaburagi. This event was organized by Department of MCA under ISTE students chapter VTU Kalaburagi.

The two days session was handled by the resource person Mr. Ashutosh Behra, who delivered a talk on “ PYTHON PROGRAMMING”.

He highlighted the importance and implementation of python programming by saying that,

“ Python has a big list of good features, few of them are :

- Support for functional and structured programming methods as well as OOP.
- It can be used as a scripting language or can be compiled to byte-code for building large applications.
- Very high-level dynamic data types and supports dynamic type checking.
- Supports automatic garbage collection.
- It can be easily integrated with C, C++, COM, ActiveX, CORBA and Java.”

He also gave importance for carrier opportunities by highlighting that :

“On Angel List, Python is the 2nd most demanded skill and also the skill with the highest average salary offered.

With the rise of big data, Python developers are in demand as data scientists, especially since Python can be easily integrated into web applications to carry out tasks that require machine learning. “

All the students successfully completed their two days workshop by giving a very good feedback, that , they were satisfied and happy with the knowledge they gained in these two days sessions, apart from this they were happy to know the carrier opportunities in python programming,

EVENT NO. 19

One day workshop by industry expert on “**Big Data Analytics**”

**Visvesvaraya Technological University Centre for
PG Studies, Kalaburagi
(Dept. of MCA)**

Report on

One day Workshop on

“Big Data Analytics”

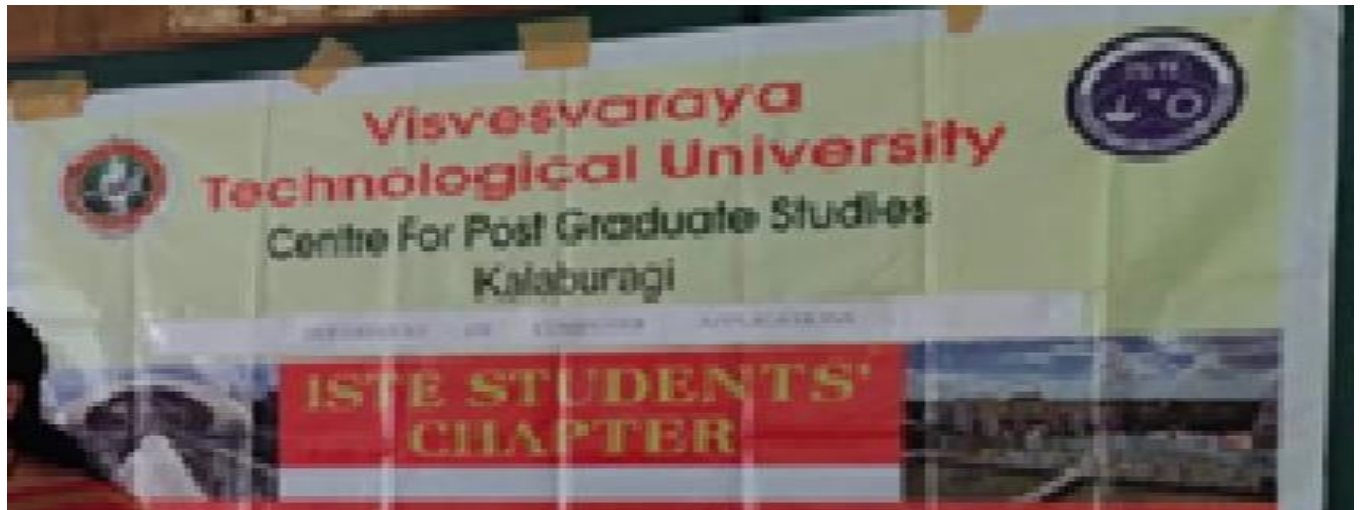

Under ISTE Students’ Chapter

(02nd January 2020)

Introduction

one day workshop on topic “ Big Data Analytics “ was being conducted under Indian Society for Technical Education (ISTE) students chapter held on 02nd January 2020 at 09.30 am to 04.30 pm in two sessions morning and afternoon in the seminar hall, at Visvesvaraya Technological University, Centre for PG studies, Kalaburagi. This event was organized by Department of MCA under ISTE student’s chapter VTU Kalaburagi.

The resource person of the Ist session was welcomed by Prof. Dr. Shubhangi D.C. and then, the technical session was continued by the resource person Mr. Sharan Kantikar vice president evry india pvt ltd, Bangalore.

Dr. Shubhangi D.C ISTE coordinator VTU Kalaburgi addressed on the event. She focused on importance of Big Data technology and ISTE student activities of the VTU Kalaburgi centre.

Mr. Sharan Kantikar, has delivered a lecture on Basics of Big Data and IoT, Data Acquisition/sensor networks, Data Processing/ Data Presentation. Also he briefed about DWBI (Data Warehousing & Business Intelligence) DW/ Big Data Insights

& Inferences and Robotics process Automation structured & unstructured workflow automation.

The resource person of the IInd session was welcomed by Prof. Bharati S. Pochal and then, the technical session was continued by the resource person Mr. Arvind S. Benal Director of engineering & Eximius Design india pvt ltd, Bangalore.

Mr. Arvind S. Benal. he has delivered a lecture on “case studies of Big Data”. He explained that, Big data comes from myriad different sources, such as business transaction systems, customer databases, medical records, internet clickstream logs, mobile applications, social networks, scientific research repositories, machine-generated data and real-time data sensors used in internet of things (IoT) environments. The data may be left in its raw form in big data systems or

preprocessed using data mining tools or data preparation software so it's ready for particular analytics uses.

Big data also encompasses a wide variety of data types, including the following:

- structured data in databases and data warehouses based on Structured Query Language (SQL);
- unstructured data, such as text and document files held in Hadoop clusters or NoSQL database systems; and
- semistructured data, such as web server logs or streaming data from sensors.

More than 70 students were participated in big data ISTE student's chapter workshop. Received the very good feedback from all the participants.

EVENT NO. 17

Two days workshop by industry expert on “ **CLOUD, EDGE AND FOG COMPUTING**”

**Visvesvaraya Technological University Centre for
PG Studies, Kalaburagi
(Dept. of MCA)**

Report on

Two days Workshop on

"Cloud , Edge and Fog computing"

Under ISTE Students' Chapter

(30th AND 31st December 2019)

Introduction

Two days workshop on topic 'Cloud , Edge and Fog computing' is being conducted under Indian Society for Technical Education (ISTE) students chapter held on 30th and 31st December 2019 at 09.30 am to 05.30 pm in two sessions morning in the seminar hall and afternoon hand held session in laboratory at Visvesvaraya Technological University, Center for PG studies, Kalaburagi. This event is organized by Department of M.C.A under ISTE students chapter VTU Kalaburagi. The resource person Dr. Pethuraj, Vice- president and Chief Architect, Reliance Jio handled the two days sessions.

The following topics were discussed on first day of workshop:

- Cloud Computing.
- Edge Computing.
- Fog Computing.

The experts briefed about all these with the explosion of data, devices and interactions, cloud architecture on its own can't handle the influx of information. While the cloud gives us access to compute, storage and even connectivity that we can access easily and cost-effectively, these centralized resources can create delays and performance issues for devices and data that are

far from a centralized public cloud or data center source. Fog and edge computing are both extensions of cloud networks, which are a collection of servers comprising a distributed network. Such a network can allow an organization to greatly exceed the resources that would otherwise be available to it, freeing organizations from the requirement to keep infrastructure on site. The primary advantage of cloud-based systems is they allow data to be collected from multiple sites and devices, which is accessible anywhere in the world.

The cloud layer is thus able to benefit from IIoT devices by receiving their data through the other layers. Organizations often achieve superior results by integrating a cloud platform with on-site fog networks or edge devices. Most enterprises are now migrating towards a fog or edge infrastructure to increase the utilization of their end-user and IIoT devices.

Experts briefed about the Edge computing also known as just “edge” brings processing close to the data source, and it does not need to be sent to a remote cloud or other centralized systems for processing. By eliminating the distance and time it takes to send data to centralized sources, we can improve the speed and performance of data transport, as well as devices and applications on the edge. Edge computing is an extension of older technologies such as peer-to-peer networking, distributed data, self-healing network technology and remote cloud services. It’s powered by small form factor hardware with flash-storage arrays that provide highly optimized performance. The processors used in edge computing devices offer improved hardware security with a low power requirement. WINSYSTEMS’ industrial embedded SBCs and data acquisition modules provide gateways for the data flow to and from an organization’s computing environments.

Experts also focused on Fog computing which is a standard that defines how edge computing should work, and it facilitates the operation of compute, storage and networking services between end devices and cloud computing data centers. Additionally, many use fog as a jumping-off point for edge computing. . Fog computing uses edge devices and gateways with the LAN providing processing capability. These devices need to be efficient, meaning they require little power and produce little heat. WINSYSTEMS’ single-board computers (SBCs) can be used in a fog environment to receive real-time data such as response time (latency), security and data volume, which can be distributed across multiple nodes in a network.

More than 50 students and faculties were participated in two days workshop on “ Cloud, Edge and Fog” Computing.

The students were satisfied and given very good feedback .

TEQIP 1.3 SPONSORED ONE WEEK WORKSHOP

On

“WATERSHED MANAGEMENT”

25th to 29th November 2019

Program Agenda- Inaugural

Time	Session	Speakers
09:30 AM to 10:30 AM	Registration	By the Participants
10:30 AM to 10:35 AM	Invocation Song	WLM Students, CPGS, VTU, Belagavi
10:35 AM to 10:40 AM	Welcome Address	Shri. Rohan S. Gurav, Assistant Professor & Workshop Coordinator, VTU, Belagavi
PRESENTATION OF BOUQUET TO GUEST (floral welcome)		
10:40 AM to 10:45 AM	Lighting the Lamp	By Dignitaries on the dias
10:45 AM to 10:50 AM	About the Workshop	Dr. Anand V. Shivapur, Prof & Chairman, Civil Engg. Dept. and Convener of workshop, VTU Belagavi
10:50 AM to 10:55 AM	Introduction to Guest	By Coordinators
10:55 AM to 11:10 AM	Address by Chief Guest	Dr. Venkatesh B. Scientist F, NIH Belagavi.
11:10 AM to 11:15 AM	Presidential Address	Dr. A.S Despande ,Registrar VTU Belgaum
11:15 AM to 11:20 AM	Vote of Thanks	Dr. N. S. Patil, Associate Professor & Director (R & D), WLM Dept., VTU, Belagavi
TEA BREAK (11:15 AM to 11:30 AM)		

Report On
TEQIP 1.3 SPONSORED ONE WEEK WORKSHOP

On
“WATERSHED MANAGEMENT”
25th to 29th November 2019

Organized By

Faculty of Water Land Management Program, Department of Civil Engineering, Centre for PG Studies, Visvesvaraya Technological University, “Jnana Sangama” Belagavi – 590018.

Inaugural Program

The **TEQIP 1.3 SPONSORED ONE WEEK WORKSHOP On “WATERSHED MANAGEMENT”** is inaugurated by Dr.Venkatash B, Scientist F , NIH Belagavi , as the chief guest in the presence of Dr . Anand S Deshpande sir ,Registrar, VTU belagavi, Dr. Anand.V Shivapur, convenor and Chairman, Dept of Civil Engg, VTU Belagavi. Shri. Rohan S. Gurav, Assistant Professor & Workshop Coordinator, VTU, Belagavi. And Dr. Nagaraj S Patil , Associate professor and Mr. C.G Hiremat ,Asst Prof & organising committee members & faculty of WLM Program, Dept of Civil Engg, VTU CPGS Belagavi. **On 25-Nov-2019 at Dept of civil Engineering,VTU Belagavi .**

During the inaugural program **welcome address** is given by **Shri. Rohan S. Gurav, Assistant Professor & Workshop Coordinator, VTU, Belagavi.** And he also mentioned discussions made in the workshop will be Specially on New and sustainable techniques, methods of watershed management , what should be a Engineers, faculties and student approaches to solve our watershed related problems, all this information will be shared during the one week Workshop and it can be can be applied more effectively in our role, and he wished all the participants. The Workshop is aimed at educating the field engineers, industrial experts, researchers, faculty members & research scholars of various technical institutions in the field of Civil, Environmental, Water Resources Engineering.

Dr. Anand.V Shivapur, convenor and Chairman, Dept of Civil Engg, VTU Belagavi. He spoke About the Workshop like The Workshop covers the topics relevant to: Watershed management objective and its approaches, challenges of water conservation and management, agronomical practices, river behavior management & training, forest hydrology, conjunctive use of surface & ground water, river morph- metric analysis using DEM data, application of RS & GIS for watershed management, SWAT Model, hydraulic modeling & its application, researching of dried and depleting bore well using rainwater , urban and rural flood management, dam safety and instrumentation, improving performance of irrigation system, Integrated watershed management.

Sir also said and highlighted The workshop provides balanced treatments of theory and practical experience by resource persons from NITK Suratkal, NIH Belagavi,WALMI Dharward , Research Institutes, Govt universities, CWPRS Pune, IEAR, Mumbai. Government bodies etc.

Dr.Venkatash B, Scientist F , NIH Belagavi , as the chief guest Address the gathering and he spoke on “WATERSHED MANAGEMENT PRACTICES” what are the issues, challenges, problems of watershed, what is the role of field engineering and field expert to solve the problems. He also suggested it is the good area of research, where students can take up the work for their M.Tec Projects and Ph.D thesis’s. before taking up any project or work we must understand the basic phenomenon behind the topic, its necessity, its social and economic values etc.

Dr . Anand S Deshpande sir ,Registrar, VTU belagavi, as President of todays Program. pointed out along with watershed management there are 3 more major important things in our lifestyle like air water and land. He highlighted the its importance and how to preserve their quality for betterment of mankind. He also wished all the participants.

The vote of thanks was delivered by Dr. N. S. Patil, Associate Professor & Director (R & D), WLM Dept., VTU, Belagavi.

Total 60 number of Participants were presented during the inaugural Program.

Inaugural Program : lighting of the lamp

From left side : from 3rd Shri. Rohan S. Gurav, Assistant Professor & Workshop Coordinator, VTU, Belagavi. ,4th Dr.Venkatash B, Scientist F , NIH Belagavi , as the chief guest, 5th Dr . Anand S Deshpande sir ,Registrar, VTU belagavi, as President of todays Program. 6th Dr. Anand.V Shivapur, convenor and Chairman, Dept of Civil Engg, VTU Belagavi, 7th Dr. N. S. Patil, Associate Professor & Director (R & D), WLM Dept., VTU, Belagavi. Along the participants & student coordinators of the workshop.

Inaugural Program: chief guest addressing the gathering.

From left side : ,Dr.Venkatash B, Scientist F , NIH Belagavi , as the chief guest, Shri. Rohan S. Gurav, Assistant Professor & Workshop Coordinator, VTU, Belagavi,. Dr. Anand.V Shivapur, convenor and Chairman, Dept of Civil Engg. Dr . Anand S Deshpande sir ,Registrar, VTU belagavi, as President of today's Program.

Understanding Personality Styles

An invited talk by Mr. Girish Pratinidhi

Retail Sales Manager at Levi Strauss & Co. Bengaluru, Karnataka, India

Mr. Girish Started with quote

"Every choice you make has an end result."

Realizing that aspects of our personalities are engaged at various levels every day at home, work and play is one thing. Understanding how to use that knowledge is another. But it is important. Being able to identify personality types can help us exert our influence, improve relationships

Educate sales team on the different personality styles. Ask them to identify the personality styles of their existing customers. Find out which styles they sell to most easily. Find out which ones are most difficult. Role-play modifying personality styles to improve their skill at identifying and modifying based on the style of the buyer. It's important to remember that focusing on these skills must include consistent practice. In order for a sports team to perform well they need to practice plays during the week. The team would not be effective

Visvesvaraya Technological University

Centre for PG Studies, Kusnoor Road, Kalaburagi

Department of Management Studies

if they spent the week sitting on the field simply discussing the plays. The same thing applies to your sales team. Don't waste time during your sales meeting discussing the skills you want to improve, instead, use this time to practice those skills through role play and feedback sessions. Practice is the only way to move your team toward improved selling skills.

Students interacted with him and asked questions related to the job prospects in sales.

Dr. Satish U concluded the session by thanking Mr. Girish and students.

“ ANDROID STUDIO ”

**Visvesvaraya Technological University Centre for
PG Studies, Kalaburagi
(Dept. of MCA)**

A

Report on

Two days Workshop

On

"ANDROID STUDIO"

Under ISTE Students' Chapter

(19TH AND 20TH September 2019)

Introduction

Two days workshop on topic “ Android Studio “ was being conducted under Indian Society for Technical Education (ISTE) students chapter held on 19th & 20th September 2019 at 09.30 am to 04.30 pm in two sessions : Morning in the MCA laboratory and Afternoon hand held session in laboratory at Visvesvaraya Technological University, Center for PG studies, Kalaburagi. This event was organized by Department of MCA under ISTE students chapter VTU Kalaburagi.

Inauguration Session

Prof. Shilpa B Kodli welcomed Dr. Shubhangi D.C ISTE coordinator VTU Kalaburgi on two days workshop “ Android Studio”.

Dr. Shubhangi D.C ISTE coordinator VTU Kalaburgi addressing on the event, She focused on importance of Android technology and ISTE student activities of the VTU Kalaburgi centre.

Prof .Megha Rani , Asst.Professor,Department of MCA, VTU CPGS , Kalaburgi, briefed about the Android studio .

Importance of Android Studio

Importance of Android Application Development Smart phones are more common than computers today. Almost everyone in the world make regular use of smart phones in their day to day lives. People can get a lot of different benefits from smart phones and that too in a very portable and mobile manner. Any kind of Smartphone requires an operating system as an interface and the most popular OS today is Android. The Android OS presents never before seen flexibility and support for third party applications. This has given rise to a huge amount of popularity of the Android OS not only among consumers, but also among developers. Hence , one can understand the importance of android application development.

Regarding , this following topics were discussed on first day of workshop:

- Installation of JDK.
- Importance of Android Programming.
- Downloading and installation of Android Studio.

Hands on session on installing android studio.

The following topics were discussed on second day of workshop:

- Hands on session on installing android studio.
- Execution procedure of Simple programs in android studio
 - Generation of apk files
 - Execution through emulator

All the students successfully completed their two days workshop and were satisfied with knowledge they gained in these two days sessions.

PRESS REPORT on Women Health Screening and awareness camp

(Dr. Renu Pattanshetty, Associate professor and Head, Department of Oncology Physiotherapy, Rohan Gurav, Youth Red Cross Program Officer, Dr. T C Tanuja, Chair Person, along with physiotherapy students and staff)

The Department of Oncology Physiotherapy, KAHER Institute of Physiotherapy, Belagavi in association with the Youth Red Cross and Womens Cell of Visvesvaraya Technology University (VTU) organised a Women Health Screening & Awareness Camp on the 9th July 2019. The camp was inaugurated by Dr.Satish Annigeri, Registrar & Registrar(Evaluation), VTU, Belagavi in presence of Dr. Renu Pattanshetty, Associate professor and Head, Department of Oncology Physiotherapy, Rohan Gurav, Youth Red Cross Program Officer, Dr. T C Tanuja, Chair Person, Women Cell, Dr.satigiri, medical officer,VTU Belgaum, along with physiotherapy students and staff. The camp was organised at the Health Center of VTU campus where the screening for breast and cervical cancers in females was done. The females were taught regarding self breast examination and explained the importance of same. The response was good and approximate 70 faculty members, teaching and non-teaching staff and female workers from all branches of VTU were screened in the camp. Post lunch there was a presentation for the female employees where the videos of the self breast examination was showed and the key Speaker of the event was Dr. Renu Pattanshetty who delivered a talk on Self Breast Examination and importance of it to prevent Breast cancer, Diet and Nutrition, Self Oral Examination to prevent Head and Neck cancers, Cervical Cancer, its cause, warning signs and its prevention. The session was interactive and doubts regarding myths and beliefs of breast and cervical cancer were discussed and resolved.

One Day Lecture By Industry Expert on

“EXata Network Emulator”
Under ISTE Students’ Chapter
(9th May 2019)

Introduction

One day lecture by industry expert on topic 'EXata Network Emulator' is being conducted under Indian Society for Technical Education (ISTE) students chapter held on 9th May 2019 at 09.30 am to 4.00 pm in the seminar hall at Visvesvaraya Technological University, Center for PG studies, Kalaburagi. This event is organized by Department of Computer Science & Engineering under ISTE students chapter VTU Kalaburagi.

Felicitation of guest by Dr.Shubhangi D.C,Professor & Co-ordinator and Dr.M .A.Waheed,Associate Professor of computer science & Engg Dept,VTU kalaburgi.

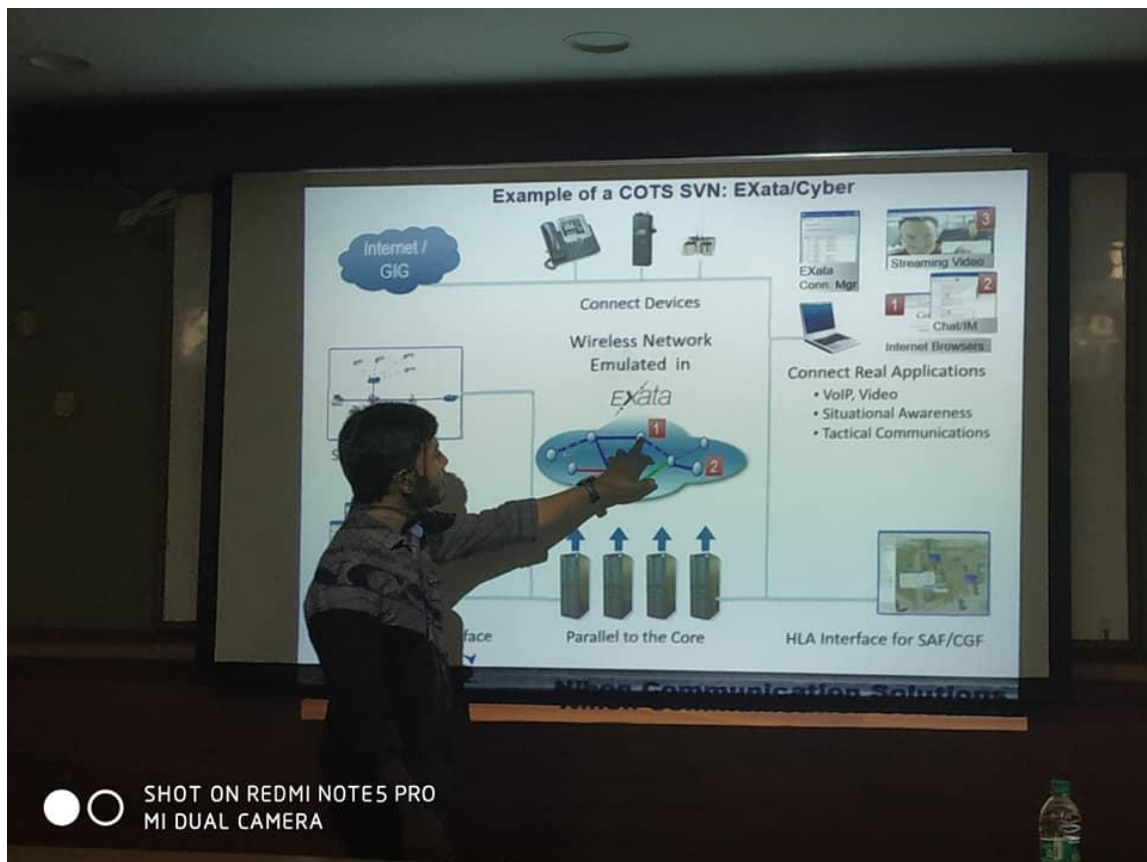

The Resource person industrial expert Sri.Rajesh.K is presently working as an Application Engineer for Nihon communication solution Pvt.Ltd ,at Bangalore. His area of work deals with Exata network Emulator and protocols/RFC'S supported in Exata.

Dr.Shubhangi D.C course co-ordinator of CS&E department & ISTE co-ordinator, VTU Kalaburgi welcoming the guest and addressed the student. She focused on importance of tools in technical field and ISTE student activities of the VTU Kalaburagi centre.

A technical talk by industry expert Sri.Rajesh.k

The following topics are discussed and covered by the expert:

- EXATA Features
- Key features of Exata stimulator in parallel mode
- Protocols/RFC'S supported in Exata

Key Differentiators of Exata

- Real time evaluation of networks and network centric systems
- Real time speed
- Real network fidelity
- Real network results at a emulation price
- Source code of all the library models is licensed to the end user, which enables the end user to make changes to existing stack.

Students and faculty participants

The session came to the end of vote of thanks. Dr. M.A. Waheed, Associate professor proposed the vote of thanks. Students were inspired by resource person's industrial guidance. The program was grand success.

ಸವಲತ್ತುಗಳನ್ನು ನೀಡಲಾಗಿದೆ ಎಂದು ತಿಳಿಸಿದರು. ಶುಲ್ಕ ವಿನಾಯಿತಿ, ಕೌಶಲ ಅಭಿವೃದ್ಧಿ ತರಬೇತಿ ಕಾರ್ಯಕ್ರಮ, ಪಿಎಚ್.ಡಿ ಮಾಡುತ್ತಿರುವವರಿಗೆ ವಿದ್ಯಾರ್ಥಿ ವೇತನದಂತಹ ವಿವಿಧ ಸೌಲಭ್ಯ ಕಲ್ಪಿಸಲಾಗಿದೆ ಎಂದರು. ವಿಟಿಯು ಪ್ರಾದೇಶಿಕ ಕೇಂದ್ರದ ವಿಶೇಷ ಅಧಿಕಾರಿ ಬಸವರಾಜ್ ಗಾದಗೆ, ಜಿಲ್ಲಾ ಕೈಗಾರಿಕಾ ಕೇಂದ್ರದ ಸತೀಶ್ ಕುಮಾರ್ ಮಾತನಾಡಿದರು. ವಿದ್ಯಾರ್ಥಿಗಳು ಪಾಲ್ಗೊಂಡಿದ್ದರು.

An Awareness Programme on Government Policies and facilities for SC/ST and OBC Student Communities by - Mukkunad Patil District Industrial Wisdom Officer, Gulbarga

This programme is organised to sensitise the student community about the policies and programmes provided by Government. Educational schemes for marginalized communities such as SC/ST were introduced by the Government of India with the aim of providing equal opportunity for scheduled tribe and scheduled caste to empower them with free educational facilities. For such programs to be effective, SC/ST members need to be aware of them and need to have a positive attitude towards them. However, due to the practice of untouchability and the remoteness of their dwellings, SCs and STs have suffered isolation from mainstream population for several centuries. As a consequence, they continue to suffer from a high degree of educational exclusion. SCs and STs, both

Department of Management Studies

economically and socially, will be only possible through inclusive education efforts. This study focuses on the role of awareness on educational schemes in attaining

Primary and secondary education among SC/ST communities in two rural villages in Coimbatore. The major findings of the study reveals that most of marginalized communities continue to remain unaware of the educational schemes and are unable to utilize all the provisions of the schemes.

Sub: One Day National Conference on "Blue Ocean Strategy and Skill Development" at VTU Regional Office, Kalaburagi.
Sub: E-mail dated 28.03.2016

With reference to the above, this is to inform that Raman International Institute of Information Technology, Mysore is intended to conduct **One Day National Conference on "Blue Ocean Strategy and Skill Development"** on 02 April 2016 at VTU Regional Office, Kalaburagi.

The present conference is intended to impart skills to rural students to think from different perspectives and find new ways to address the challenges. The student leadership initiative will look at the essential elements of skills and come up with good strategic solutions to address the challenges and opportunities of Skill India.

The Principals of affiliated colleges of region are hereby requested to bring this information to the notice of circuit branches (computer, electronics, electrical and allied branches) of faculty concerned, research scholars and students and encourage them to participate by deputing faculty, ten students and the placement officer from their institute.

Please note:

- No registration fees
- No TA & DA will be paid
- Students should carry College ID Cards

ವಿ.ತಾ.ವಿ.ಯಲ್ಲಿ ಕೌಶಲ್ಯ ಅಭಿವೃದ್ಧಿಯ ಸಮಾವೇಶ

ನಗರದ ವಿ.ತಾ.ವಿ. ಪ್ರಾದೇಶಿಕ ಕೇಂದ್ರದಲ್ಲಿ ಒಂದು ದಿನದ ಕೌಶಲ್ಯ ಅಭಿವೃದ್ಧಿಯ ಸಮಾವೇಶವನ್ನು ಆಯೋಜಿಸಲಾಗಿತ್ತು. ಈ ಸಮಾವೇಶವನ್ನು ಮೈಸೂರಿನ ರಾಮನ್ ಇಂಟರ್‌ನ್ಯಾಷನಲ್ ಇನ್‌ಸ್ಟಿಟ್ಯೂಟ್ ಆಫ್ ಇನ್‌ವೆಸ್ಟ್‌ಮೆಂಟ್ ಟೆಕ್ನಾಲಜಿ (RIIT)ಯ ಸಹಯೋಗದಿಂದ ಅಂತಿಮ ವರ್ಷದ ಪದವಿ ಹಾಗೂ ಸ್ನಾತಕೋತ್ತರ ವಿದ್ಯಾರ್ಥಿಗಳಿಗಾಗಿ ಆಯೋಜಿಸಲಾಗಿತ್ತು. ಸಮಾವೇಶದಲ್ಲಿ RIIT ಯ ಕಾರ್ಯನಿರ್ವಾಹಕ ನಿರ್ದೇಶಕರಾದ ಶ್ರೀ ಎಸ್.ವಿ ವೆಂಕಟೇಶ್‌ವರರು ಮಾತನಾಡಿ Blue Ocean Strategy ಯ ಮಹತ್ವವನ್ನು ವಿವರಿಸಿದರು. Blue ocean(ನೀಲಿ ಸಾಗರ)ವು ಬಹಳ ಪ್ರಶಾಂತವಾದ ವಾತಾವರಣವನ್ನು ಹೊಂದಿದ್ದು, ಹೆಚ್ಚು ಕಡಿಮೆ ಉಪಯೋಗಿಸದೆ ಹಾಗೂ ಅನ್ವೇಷಣೆ ಮಾಡದಿರುವ ಪ್ರದೇಶವಾಗಿದೆ. ನೀಲ ಸಾಗರದ ಹೋಲಿಕೆಯನ್ನು ಒಬ್ಬ ವ್ಯಕ್ತಿ ಹೇಗೆ ತನ್ನಲ್ಲಿರುವ ಗುಣಗಳು ಹಾಗೂ ಇಲ್ಲದೇ ಇರುವ ಕೌಶಲ್ಯಗಳನ್ನು ಅರಿತು ಕೊಳ್ಳುವ ವಿಧಾನವಾಗಿದೆಯೆಂದರು. ಈ ನಿಟ್ಟಿನಲ್ಲಿ ನಕಾರಾತ್ಮಕ ಗುಣಗಳನ್ನು ಹೊಡೆದೂಡಿಸಿ ಧನಾತ್ಮಕ ಗುಣವನ್ನು ಹೇಗೆ ಅಳವಡಿಸಿಕೊಳ್ಳಬಹುದೆಂದು ವಿವರಿಸಿದರು. ಒಬ್ಬ ವಿದ್ಯಾರ್ಥಿ ತನ್ನನ್ನು ತಾನು ಆತ್ಮಾವಲೋಕನ ಮಾಡಿಕೊಂಡರೆ ಈ ವಿಷಯಗಳು ಅವನ ಗಮನಕ್ಕೆ ಬಂದು ಅವುಗಳಿಂದ ಹೊರಬರಲು ಸಾಧ್ಯವಾಗುತ್ತಾದೆಯೆಂದರು. ಬೇರೆಯವರು ನಮ್ಮ ತಪ್ಪುಗಳನ್ನು ತೋರಿಸಿ ಸರಿಪಡಿಸಿಕೊಳ್ಳಿ ಎನ್ನುವ ಬದಲು ನಾನು ಎಲ್ಲಿದ್ದೇವೆ, ನನ್ನ ನಿರೀಕ್ಷೆಗಳೇನು ಹಾಗೂ ನನ್ನಲ್ಲಿರುವ ಸಾಮರ್ಥ್ಯಗಳಿಗನುಣವಾಗಿ ಹೇಗೆ ಸವಾಲುಗಳನ್ನು ಸ್ವೀಕರಿಸಬೇಕು ಅವುಗಳಿಂದ ಯಾವಾಗ ಹೊರಬರಬಹುದು ಎಂದು ತಿಳಿಯಲು ಸಾಧನವಾಗಿದೆ ಎಂದರು. ಕರ್ನಾಟಕದ ಇಂಜಿನಿಯರಿಂಗ್ ಕಾಲೇಜುಗಳಿಂದ ಪ್ರತಿ ವರ್ಷ ಸುಮಾರು 2೫೦೦೦ ಇಂಜಿನಿಯರಿಂಗ್ ಪದವಿಧರರು ಹೊರ ಬರುತ್ತಿದ್ದು, ಅದರಲ್ಲಿ ಅಂದಾಜು ೧೫೦೦೦ ಇಂಜಿನಿಯರಿಂಗ್ ಕ್ಯಾಂಪಸ್ ನೇಮಕಾತಿಯಲ್ಲಿ ಭಾಗವಹಿಸಿ ಯಶಸ್ಸುಗಳಿಸುತ್ತಿದ್ದಾರೆ. ಇನ್ನುಳಿದ ೬೦೦೦೦ ವಿದ್ಯಾರ್ಥಿಗಳಲ್ಲಿ ಉದ್ಯಮಗಳಿಗೆ ಪೂರಕವಾದ ಕೌಶಲಗಳ ಕೊರತೆಯ ಕಾರಣವೇ ಅವರನ್ನು ನಿರುದ್ಯೋಗಿಯಾಗಲು ದಾರಿಮಾಡಿ ಕೊಟ್ಟಿದೆಯೆಂದು ನುಡಿದರು. ಉದ್ಯಮದ ಅಗತ್ಯತೆ ಒಂದು ಕಡೆ, ವ್ಯಕ್ತಿಯ ಸಾಮರ್ಥ್ಯ ಇನ್ನೊಂದು ಕಡೆ ಅಳೆದು ನೋಡಿದಾಗ ನಮ್ಮಲ್ಲಿರುವ ಕೊರತೆಯನ್ನು ತಿಳಿಯಲು ಸಹಾಯವಾಗುತ್ತದೆ. ಮತ್ತು ನ್ಯೂನತೆಗಳಿಂದ ಹೊರಬರುವ ಸಾಧನವೇ Blue Ocean Strategy ಆಗಿದೆ. ಈ ಸಮಾವೇಶವನ್ನು ಉದ್ಘಾಟಿಸಿದ ಪಿಡಿಎ ಇಂಜಿನಿಯರಿಂಗ್ ಕಾಲೇಜಿನ ಪ್ರಾಂಶುಪಾಲರಾದ ಡಾ. ಎಸ್.ಎಸ್.ಅವಂತಿಯವರು ಮಾತನಾಡಿ ಪ್ರಸ್ತುತ ಸ್ಥಿತಿಯಲ್ಲಿ ಕೌಶಲದ ಮಹತ್ವವನ್ನು ವಿವರಿಸಿದರು. ಪಿಡಿಎ ಇಂಜಿನಿಯರಿಂಗ್ ಕಾಲೇಜಿನ ಉಪ ಪ್ರಾಂಶುಪಾಲರಾದ ಡಾ. ಮಹದೇವಪ್ಪ ಗಾದಗೆ, RIIT ಯ ಮುಖ್ಯಸ್ಥರಾದ ಶ್ರೀ ಸತ್ಯನಾರಾಯಣ ಮಾತನಾಡಿದರು. ವಿ.ತಾ.ವಿ. ಪ್ರಾದೇಶಿಕ ಕಛೇರಿಯ ವಿಶೇಷಾಧಿಕಾರಿಗಳಾದ ಡಾ. ಬಸವರಾಜ್ ಗಾದ್ಗೆಯವರು ಅಧ್ಯಕ್ಷೀಯ ಭಾಷಣ ಮಾಡಿ ಈ ಸಮಾವೇಶದ ಸದುಪಯೋಗ ಪಡೆದು ಕೊಳ್ಳಬೇಕೆಂದು ಪ್ರಾದೇಶಿಕ ಕೇಂದ್ರ ವ್ಯಾಪ್ತಿಯಲ್ಲಿ ಬರುವ 17 ಇಂಜಿನಿಯರಿಂಗ್ ಕಾಲೇಜುಗಳ 170 ವಿದ್ಯಾರ್ಥಿಗಳು ಹಾಗೂ ಭೋಧಕ ಸಿಬ್ಬಂದಿಯವರಿಗೆ ಮನವಿ ಮಾಡಿದರು. ವಿ.ತಾ.ವಿ.ಸ್ನಾತಕೋತ್ತರ ಕೇಂದ್ರದ ಭೋಧಕ ಸಿಬ್ಬಂದಿ ಹಾಗೂ ವಿದ್ಯಾರ್ಥಿಗಳು ಉಪಸ್ಥಿತರಿದ್ದರು.
