

7.1.4 Water conservation facilities available in the Institution:

3. Construction of Tank and Bunds at VTU Jnana Sangama campus Belagavi

- A. Check dam (Bund) is constructed across a natural nalla flowing from North to South end of the campus, and is situated close to Sports Complex and Tennis court Building. This check dam stores water during monsoon season facilitating the groundwater recharging process. Maintenance of the check dam which includes clearing of debris, desiltation and maintenance of conveyance system is carried out on regular basis by the engineering section.
