18CV824

Eighth Semester B.E. Degree Examination, Dec.2023/Jan.2024 Rehabilitation and Retrofitting

Time: 3 hrs.

Max. Marks: 100

Note: Answer any FIVE full questions, choosing ONE full question from each module.

Module-1

- 1 a. What is durability of concrete? How do the following affect the durability of concrete :
- i) Carbonation
 - ii) Alkali aggregate reaction. (10 Marks)
- b. Explain the following terms :
- i) Repair
 - ii) Rehabilitation
 - iii) Strengthening
 - iv) Retrofitting
 - v) Alkali Silica reaction. (10 Marks)

OR

- 2 a. Write short notes on :
- i) Freeze and Thaw on concrete
 - ii) Thermal movement in concrete. (10 Marks)
- b. Define Distress. Explain the types of distress in concrete structures. (10 Marks)

Module-2

- 3 a. Write short notes on :
- i) Ultrasonic pulse velocity method
 - ii) Rebound hammer test. (10 Marks)
- b. Explain the general procedure for investigation of damage in concrete structures. (10 Marks)

OR

- 4 a. Explain the causes of surface cracking after hardening concrete with the help of flow chart. (10 Marks)
- b. Explain the test procedure for any two methods of semi – destructive testing. (10 Marks)

Module-3

- 5 a. Explain in detail regarding mechanism of temperature variation in concrete and their remedial measures. (06 Marks)
- b. What preventive measure will ensure protection against corrosion in new structures? (06 Marks)
- c. Explain the importance of concrete cover in RCC structures. (04 Marks)

OR

- 6 a. Explain the effect of wear and erosion on concrete. (10 Marks)
b. Discuss the causes of failure of structures due to construction errors. (10 Marks)

Module-4

- 7 a. Explain column and Beam Jacketing techniques. (10 Marks)
b. Define maintenance engineering. Explain the classification of maintenance. (10 Marks)

OR

- 8 a. Explain :
i) External Bonding [ERB] Technique
ii) Near Surface Mounted [NSM] Technique. (10 Marks)
b. With a note on Seismic rehabilitation of existing structures. (10 Marks)

Module-5

- 9 a. Discuss the classification of repair materials and the selection criteria. (10 Marks)
b. Discuss the significance of :
i) Epoxy resins
ii) Vacuum concrete. (10 Marks)

OR

- 10 a. Explain the methods of repair by :
i) Resin injection
ii) Stitching
iii) Guniting and shotcreting. (10 Marks)
b. Discuss the different types of fibers and their role as material. (10 Marks)
