ABOUT VTU

Visvesvaraya Technological University (VTU) is one of the largest Technological Universities in India with 12B/2A certification from UGC. It came into existence in the year 1998 to plan and manage engineering education in the state of Karnataka and to cater the needs of Indian industries for trained technical manpower with practical experience and sound theoretical knowledge. University has successfully achieved the tremendous task of bringing various colleges affiliated earlier to different Universities, with different syllabi, different procedures and different traditions under one umbrella. It has four regional centers across the State of Karnataka in Belagavi, Bengaluru, Kalaburagi and Mysuru respectively. University is comprised of a multi-disciplinary and multi-level institution offering wide ranging programmes in engineering, technology and Management. VTU is the first university in the country to adopt Innovative steps in the examination reforms by adopting Digital Evaluation System. University is also offering PG/Ph.D programs in its campuses across the state.

DEPARTMENT OF COMPUTER SCIENCE AND ENGINEERING

Department of Computer Science and Engineering was established in the year 2002. Faculty of the department have wide professional expertise and are actively involved in research and technical services. The area of research includes image processing, cloud computing, network security, Big data analytics, machine learning, Internet of Things and many more. The department is also very active in manpower development and regularly organizes tailor made workshops and training programs.

ABOUT THE PROGRAM

"Project Management" is one of the main subjects studied by the students of major engineering branches like Architecture, Civil, Mechanical & other engineering stream and "Software Engineering" for Information Technology and Computer Science streams. This program strengthens and updates the knowledge of faculty handling these subjects by correlating the University syllabus and real time industrial approach towards it. It ensures consistent practices of project management across all colleges by providing a structured approach and framework for the execution of the projects.

The main objectives of the program are

1. To enrich the faculty of the industry best practices in project management
2. To provide a framework for the students while executing their academic projects
3. To facilitate gaining of industry (virtual) experience by both faculty and students

RESOURCE PERSON

1. **Suresh Thiagarajan**, Director, Process & Quality, Fermata Consulting Pvt Ltd., Bangalore

WHO CAN APPLY?

Faculty of all engineering streams (Mechanical, Civil, Electrical, Electronics, Architecture, IT, Computer Science and so on)

BENEFITS

1. Consistent practices of project management across all colleges
2. Structured approach and framework for the execution of the projects
3. Virtual industry experience for the students before even they get employed
4. Ramping up of project management practices by the faculty on par with industry
5. Speakers drawn from Industry to give real life case studies
