5. ABOUT CAMBRIDGE GROUP OF INSTITUTIONS

Cambridge group of institutions enjoys the reputation of running the premier institutes imparting quality education in engineering, one at KR puram (CIT) and another near Devanahalli (CIT-NC) and it is managed by dynamic educationist, Shri D.K.Mohan. CIT is NAAC & NBA accredited. It is ranked 5th in Bangalore, 8th in Karnataka and 4th among top Private T-schools as certified by Data Quest CMR survey 2018. ASSOCHAM has awarded CIT as Best Emerging Engineering college in India. CIT-NC is run by an able and dynamic academician Dr. Udaya Kumar's and offers B.E Degree programs in ECE, CSE & ME.

Various AICTE Sponsored Conferences, FDPs, seminars and workshops are organized very frequently. Recently 8-days National Internship was conducted during Sep'2019. Participants of National internship program applying the theoretical knowledge gained during theory sessions to fabricate race car.

During this internship, staff & students have designed and developed race car.

Cambridge group of institutions takes pride to announce the International Conference on Science, Engineering and Management (ICSEM 2020) at CIT-NC in association with Institute For Engineering Research and Publication (IFERP)

Participants of National internship program enjoying the happy moments of fabricating the race car.

ABOUT IFERP PARTNER

Institute For Engineering Research and Publications (IFERP) is India's one of the largest Non-profit R & D organization. It conducts Technical conferences, seminars and workshops all over the country to reduce the gap between curriculum and their practical implementation among students and research scholars. Today IFERP is one of the leading publishers of research papers in its high quality peer reviewed journals, proceeding and research magazine. Further, IFERP has strong networks of academicians and industrial professionals which helps to promote creative ideas of the budding engineers.

ABOUT THE CONFERENCE

Cambridge group of institutions are hopeful of creating facilities for the students to apply their minds to develop products useful to the society, particularly to apply the above ideas of the race car to design and develop an hybrid tractor, capable of running on solar & diesel. With this in mind, this conference has been organized to help our staff & students to gain knowledge from academicians and industrialists all over the globe.

THEME 1: To give insight to unifying theory of natural, artificial, machineable and computational intelligence

THEME 2: To analyze the role of information in the evolution of human intelligence and the needs for logical abstraction in modeling the brain and natural intelligence.

THEME 3: To enable autonomy in challenging environments, in applications such as driving IC engines, underwater explorations, drones, agricultural robotics, Remotely Operated Vehicle (ROV) in oil industry.
