ABOUT THE ORGANISER

LIS Academy

LEARN | INSPIRE | SERVE

The LISA (Library & Information Science Academy), as a charitable trust, focus on developing program, expertise and identifying suitable technology to bridge the gap between academia and industry from time to time. The LISA has its own campus, ICT infrastructure and experts for developing/customizing various open software application, hands-on training and identifying suitable Open-source software on par with the changing needs of all the libraries. At the same time, LISA has in its cognition the technical, technological and content needs of each type of libraries is different and it can pay attention to the customized needs of each type of libraries like Public Libraries, school, college/university and special including research libraries. LIS Academy also has been conducting various trainings, conferences, workshops. To name few it has already conducted leadership programs, few conferences/conclaves on research methodology and scholarly communication, National Education program, etc.

REGISTRATION FOR TRAINING PROGRAM

The interested participants may register for the Training Programme by filling up the Google Form by c\scanning following QR Code.

Registration fees
Including Lunch and Registration Kit:
Rs. 1000

Note: Only 25 Participants will be accommodated on first come first serve basis

ABOUT TRAINING PROGRAM

Researchers and academicians spend lot of valuable time in retrieving scholarly content relevant to their research topic. Often, researcher's fails to manage the retrieved research articles systematically. The personal libraries built using reference management software's will be of great help for researchers in saving time. Today, various reference management tools are available as freeware and shareware. The training program will focus on imparting skillset to use Mendeley, a free reference management software. The participants will have hands on training at well-equipped computer laboratory and get trained to build and experience their own personal library. The participants will also get trained to cite references, create bibliographies and change the referencing style of their papers / thesis automatically.

REQUIRED SKILLS

- ✓ Basic knowledge of computers / Microsoft Word
- ✓ Basic knowledge of citing and referencing, however, it is not compulsory

TAKEAWAYS OF TRAINING PROGRAM

- ✓ Use of search tools / databases / scholarly search engines to find specific references / research article.
- ✓ Build your personal library of research articles both online and offline
- ✓ Ability to store full text PDFs within your library, and to make annotation
- ✓ Import / Export References
- ✓ Use folders to organise content in Mendeley online and offline
- ✓ Use Mendeley to 'cite while you write' in Word Documents automatically
- ✓ Use Mendeley to create bibliographies
- ✓ Use Mendeley to change the referencing style of a document
- ✓ Ability to share references with other Mendeley users, either completely openly or as part of a closed group
