Sasken Technologies Limited

Company Profile:

About Sasken:

Sasken is a specialist in Product Engineering and Digital Transformation providing concept-to-market, chip-to-cognition R&D services to global leaders in Semiconductor, Automotive, Industrials, Consumer Electronics, Enterprise Devices, Satellite Communication, Telecom, and Transportation industries. For over 30 years and with multiple patents, Sasken has transformed the businesses of 100+ Fortune 500 companies, powering more than a billion devices through its services and IP. For more information, visit www.sasken.com.

Job Description:

Successful candidates will be offered the position of **Associate Software Engineer**. For the initial 3-6 months, an engineer will be trained on an area of business focus and will be assessed periodically. Training will be a combination of self-study, classroom, and on-the-job. Upon successful completion of the training, satisfactory performance during learning and assessments, and completing 6 months in the organization, the employee will be promoted as **Software Engineer** and placed in projects.

Work assignment could be in any area among development, testing, integration, and sustenance of software products for our customers. Assignments to different projects and roles will be based on the skill and aptitude of the engineer. Work location could be Bengaluru, Chennai, Kolkata, or Pune.
