About Juspay:

Juspay's vision is to enable the billion people in India with secure 1-click payments on mobile. Online payment is a BIG infrastructure problem with high demands on scale, security and reliability; the capability to power India's entire internet commerce traffic is what we are building.

We process over 20M transactions a day, through our presence in top apps like Flipkart, Amazon, BookMyShow, RedBus, MakeMyTrip, Myntra, Swiggy, Airtel, Vodafone, Yatra, etc. Having crossed more than a billion transactions in the last year, with more than 250M SDK installs, we are growing at the rate of all apps put together!

What drives us? We take bold moves in technology innovation and that has kept us in a unique position over the years. We've built a mobile micro app platform which we call Presto - that enables us to build end to end native payments UI experiences inside other top apps. We have also made deep investments in pure functional programming techniques (PureScript/Haskell) which are improving our productivity by 10x.

Why FP? Search the web for "why functional programming matters" and you will find the world moving towards Pure FP techniques.

Juspay, the pioneers of 1-click frictionless digital payments in India, is looking to hire developers (engineering) for India and Global expansion. We felt you could be a good fit. We are a SoftBank-funded, product-focused, ecosystem-driven company with massive growth potential ahead. We have a very positive and growth-driven culture.

About Rookies World :

Incepted in the year 2016, by a team of highly qualified technocrats with a vast experience in IT sector & techno-commercial field in other industries as well as specialized in assembling and managing dedicated teams of highly skilled technical professionals to augment in-house resources. Our team is experts in recruiting fresh engineering and management talents from college campus drives across Pan India. Empowering the emerging talent from Technical and Non-Technical institutions by providing them Company Specific trainings, Technical Trainings, skill based, behavioral coaching and preparing them for creative corporate careers.
