Last date for Registration
17 May 2025

Registration Fee

- **Srishti Exhibition & Srishti Hackathon: ₹700**
- **Srishti Innovator & Srishti Ideathon: ₹300**

Note: Accommodation and food will be provided to outstation students at No Cost (Only if intimated in advance). Accommodation would be made in the Dormitory, Hostel, and hall.

THE MOST EXCITING PART! HERE'S WHAT AWAITS THE WINNERS

Cash Prizes for each section of the competition would be awarded.

TOTAL PRIZE WORTH ₹ 25 LAKHS

A Championship Trophy and Runner-up Trophy will be awarded to an institution based on its overall performance in the event.

Will your college participate in large numbers? Have you got that zeal and motivation? Then, you have every chance of winning a Special Trophy for the 'student-friendly college'

VSS Trust

Vidyarthi Shikshana Seva Trust (VSS Trust), established in 1979, pioneers a progressive approach to education, diverging from conventional methods. Committed to all-around student development through non-formal education activities, the trust aims to instill character, discipline, and pride in Bharatiya culture. With a focus on deepening understanding and sensitivity within the educational community, VSS Trust ignites young minds for individual and national achievement. Through diverse programs like seminars, workshops, and national integration camps, the trust strives to realise its vision for a dynamic and holistic education system.

Acharya Institute of Technology (AIT) Bengaluru

Established in 2000, is a premier engineering institution located in Bengaluru. Affiliated to Visvesvaraya Technological University (VTU), approved by AICTE, and accredited by NBA and NAAC, AIT is known for its commitment to academic excellence, research, and innovation. The institute offers a vibrant learning environment with modern infrastructure and a lush green campus. Admitting around 1000 students annually, AIT hosts a diverse student community from over 60 countries, providing a truly global perspective. With partnerships across 20+ international universities, AIT enables global immersion through student exchange programs and industry internships. Dedicated to sustainable, value-based education, AIT envisions itself as a global hub for innovative human enterprise and academic excellence.

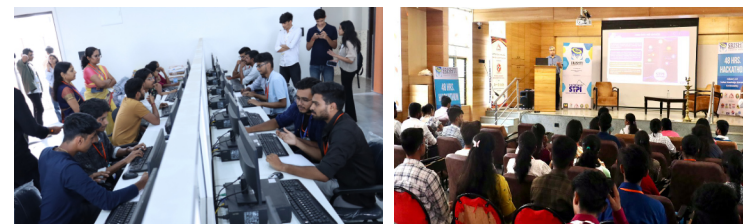

Akhil Bharatiya Vidyarthi Parishad

Founded in 1949, the Akhil Bharatiya Vidyarthi Parishad (ABVP) is an all India Students organization working in the field of education in the wider context of National Reconstruction to build of educational community as a family.

ABVP has spread its work to all the universities across India with over 40 lakh membership and 6500units; It has successfully led the students in different parts of the country in their struggles and agitations for their rightful demands and against corrupt and inefficient authorities. The rallies and demonstrations, in which lakhs of students participated in various provinces show that ABVP is a unique organization of the student community of the country.

Yuvaka Sangha

Yuvaka Sangha is a non-profit organisation based in Bengaluru, dedicated to empowering the youth and nurturing their holistic development. We have transformed into a prominent forum for college students, striving to make affordable, accessible, high-quality education a reality. Our goal is to enable them to actively contribute to the broader community, paving the way for a brighter collective future. Together, we envision a world where the dreams and aspirations of every young individual are nurtured, fostering a stronger and more vibrant society for generations to come.

Scientists and Engineers are the drivers of progress; innovation is the key to unlocking a better world.

All of us are social beings coming across problems each day and that necessitates the development of solutions. Science and technology has been the backbone of our evolution into a civilized society. India is no alien to issues of power, roads and public health among many others. In this regard, innovative bright minds of our nation will have to become pivotal to change.

Talking of youth and society, Vidyarthi Shikshana Seva Trust, has a rich history of being at the forefront of change. Srishti, which is a competition for exchange of ideas, has been a celebration of science. It has provided a platform for exchange of ideas, ideas that have the intent and power to solve key issues that plague our country.

Srishti is stepping into its 19th year, and hopes to continue its efforts of bringing engineering projects out of academic walls. It wants to build a bridge between innovation and industry which would help students and the professional world meet each other.

Srishti Exhibition

A vibrant platform for students to showcase innovative projects across diverse domains. This is more than just a display—it's a celebration of creativity, application, and problem-solving. Top projects will be recognized and awarded by industry experts

Group 1

Computer Sciences

CS & IS, AIML, Data Science, IoT

Group 2

Electricals

Electrical Engineering, Electronics

Group 3

Mechanical & Civil

Mechanical, Civil, Aeronautical, and related branches

Srishti Hackathon

Srishti Hackathon is a 36-hour innovation marathon where participants collaborate to develop impactful solutions rooted in Artificial Intelligence (AI) / Indian Knowledge Systems (IKS). Teams will receive carefully curated problem statements at the start of the event and work intensively to build prototypes, guided by mentors and industry experts. This hackathon is more than just coding — it's a platform to ideate, create, and pitch groundbreaking solutions.

Srishti Innovators

Srishti Innovators brings together a series of exciting competitions that allow students to showcase their skills, creativity, and technical prowess across various domains.

RoboRush (Robo Race)

Race. Navigate. Dominate.

Compete in an exhilarating robotics race where speed, precision, and control are key.

Circuitrix (Circuit Design/Debug)

Decode the Current. Design the Future.

Test your circuit design and debugging skills in this thrilling competition.

Codenza (Coding Challenge)

Where Logic Meets Speed.

A fast-paced coding challenge where quick thinking and problem-solving are essential.

BridgeCrafter (Bridge Building – BridgeIt)

Design. Build. Withstand.

Showcase your structural engineering skills by designing and building bridges that can withstand weight.

Prompt to Product (AI Prompt Challenge)

Imagine. Prompt. Create.

A challenge to create innovative products using AI prompts and design tools.

SustainaSolve (Sustainability Innovation Challenge)

Think Green. Act Smart. Pitch Impact.

Innovate sustainable solutions with a focus on environmental impact and sustainability.

Srishti Ideathon

The Business Pitch Challenge empowers students to present innovative, impactful business ideas. This platform offers aspiring entrepreneurs a chance to showcase feasible, market-ready, and financially sound models before industry experts. Compete, innovate, and elevate your vision to make a real-world difference!

Srishti Talks

A dynamic platform where distinguished speakers, industry experts, and thought leaders share insights on emerging trends, innovation, and technology. Engage in thought-provoking discussions, interact with experts, and gain valuable perspectives on the forces shaping the future across industries. Learn from leaders driving transformative change.

Themed Pavilions

Explore immersive themed pavilions on Artificial Intelligence (AI) and Indian Knowledge Systems (IKS). Experience hands-on activities, innovative exhibits, and live demos. Engage with experts through interactive sessions and gain unique insights into cutting-edge technology and timeless wisdom shaping the future.
