CIRCULAR

Subject: Information regarding One-Year Internship Opportunities through Internship Platforms

Reference: The Hon'ble Vice Chancellor's approval dated: 14.08.2026

This is to inform all students that several reputed industries and multinational companies, such as Bosch, Qualcomm, Intel, Toshiba, Panasonic, Caterpillar, Hitachi, Kobelco, and many other leading organizations, are offering one-year internship opportunities to eligible students. These opportunities are being coordinated and offered by iGenuine. The internships are generally accompanied by a monthly stipend ranging from approximately ₹14,000 to ₹35,000, depending on the company, role, location, and student performance.

These internship opportunities are available through the designated online internship platform, where students can view details of the participating companies, eligibility criteria, internship locations, stipend offered, and other relevant information. Interested students may log in to the platform and indicate their preferred companies and internship options as per the instructions provided on the platform. Students admitted under Scheme B are particularly encouraged to explore these opportunities as part of their academic and professional development.

Students who complete the mandatory internship requirements prescribed under their respective schemes may, subject to the approval of the concerned company and the University, continue their internship for an extended duration to gain additional industrial exposure and practical experience.

Students are advised to carefully examine the internship details available on the platform and verify the eligibility criteria, duration, stipend, work location, and academic implications before exercising their choice and accepting any internship offer.

Important Note:

1. The internship opportunities listed on the online internship platform are provided for the benefit of students and are purely optional in nature.
2. Availing these internships is not mandatory for students.
3. Students of Scheme B may consider these one-year internships as a valuable opportunity for acquiring industry experience and enhancing employability.
4. Selection for internships shall be subject to the requirements and selection procedures of the respective companies.
